HEIGHT ADJUSTABLE BENCH DESK SYSTEM

# Simple Flexible Affordable

Leading the way in ergonomic products for the workplace, Posturite are delighted to launch the new standard for electric height adjustable desk systems, DeskRite Evolve.

Designed and developed by our experienced team of directors, senior managers, designers and consultants, the priority was to produce an affordable system of desks specifically for large scale projects.

We sold our first height adjustable desk in 1994 and have advocated height adjustable workstations to thousands of customers ever since. Workplace ergonomics has been our business for 25 years, so our experience and expertise is unsurpassed when it comes to sit/stand desks.

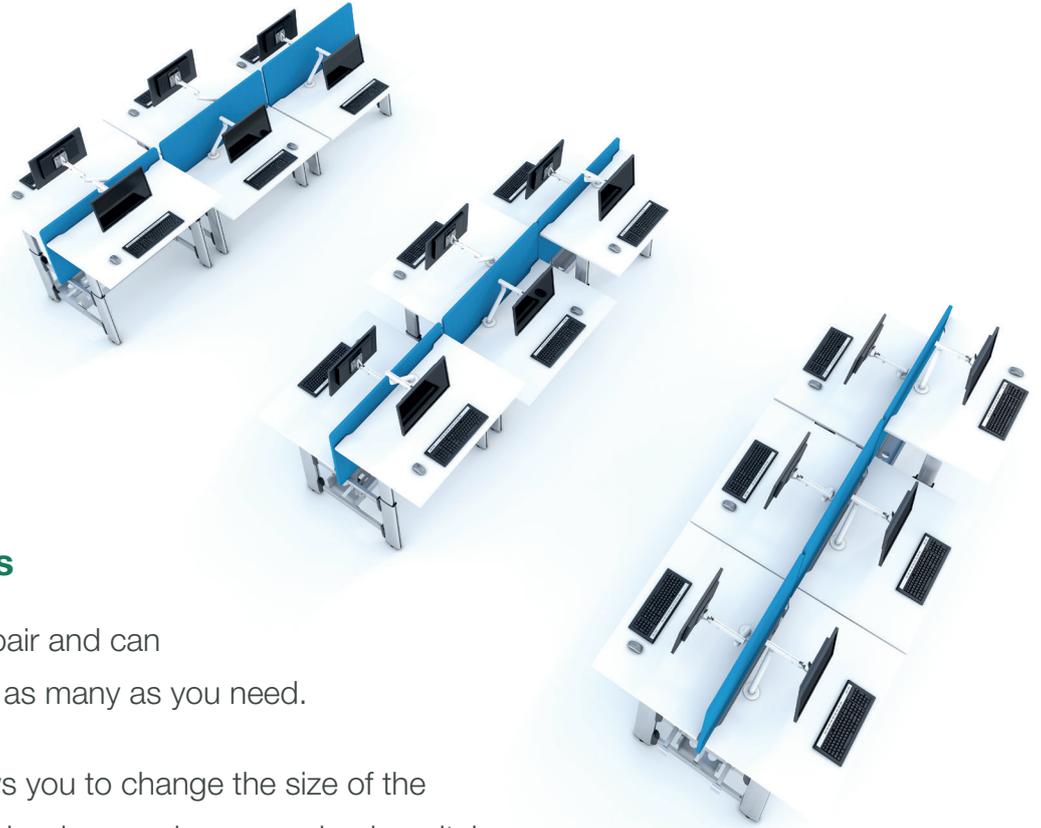

Choose Evolve and begin  
building an active working  
culture in your office

## Designed for large scale projects

Evolve desks start as a pair and can then be expanded up to as many as you need.

The versatile frame allows you to change the size of the desks as your business develops and grows - simply switch over the desktop and screen.

## Health benefits

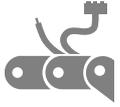

Growing scientific evidence shows that sedentary work increases the risk of developing type 2 diabetes, heart disease, certain cancers and musculoskeletal issues, in addition to contributing to a reduced life expectancy.

We advocate an active working culture. This means increasing physical activity at work by promoting standing meetings, 'active' breaks from work and a general reduction in sitting time.

All this adds up to improved productivity, a reduction in absence and a healthier workforce.

## Features

We've built in lots of innovative features to make Evolve a market-leading product.

### Cable management

Cables can be popped in and out through a split retaining crossbar along the outer radius. Provides an internal channel of 20 x 50 mm.

### Electric switch

Go from sitting to standing and back again at the push of a button. Let the built-in mechanism take care of the rest.

### Fixed-width spacer

Evolve's spacer eliminates the risk of trapping fingers and cables by ensuring a 50 mm space is always maintained between the desktops.

### Screen

Standard, acoustic, magnetic or pin board functionality available. For more screen options (coverings, tool bars and sizes), please call or email us.

## 5 YEAR

### Comprehensive Warranty

On all component parts.
