

# EVAC+CHAIR 110

Comfortable evacuation for the mobility impaired.

Designed for one person operation and is lightweight and easy to manoeuvre. In an emergency, when passenger lifts cannot be used, this is vital equipment to assist someone with impaired mobility. This model has a lighter weight payload capacity than our other models: 150 kg (around 23 stones). There is an extension handle which you can full extend when descending stairs.

## FEATURES

- 1 Multi height extension handle**  
For ease of horizontal movement (use fully extended for descent).
- 2 Adjustable passenger head strap**  
Limits movement, securing the passenger in place.
- 3 Sewn-in safety belt**  
Improves safety and durability.
- 4 Unique friction belt system**  
Self-braking track to control smoothness and speed of descent.
- 5 Redesigned kickstand, with repositioned rear wheels**  
Increased stability and enhanced operator handling.
- 6 Large 100mm castor wheels**  
Ideal for operation over uneven terrain.
- 7 Foldable Footrest**  
For added passenger comfort and safety.
