

Annual Inspection Check

EvacuRite

If you have an EvacuRite evacuation chair on your premises, we can carry out an annual inspection for just £75.00 for the first chair and £25.00 for each additional chair on site.

Your mandatory Fire Risk Assessment will almost certainly have required you to invest in equipment such as fire extinguishers, alarm or sprinkler systems and evacuation chairs.

It will also probably require you to ensure that your building and its contents are maintained, that the equipment works and is checked and tested in accordance with approved codes of practice and manufacturer's instructions.

If you have an EvacuRite evacuation chair on your premises, WorkRite can carry out an annual inspection for just £75.00 for the first chair and £25.00 for each additional chair on site.

We will inspect* all the moving and working parts of the chair to ensure they are in sound working order and that in the event of a crisis, your evacuation chair will meet your expectations.

We will even email you to remind you that your inspection is due – total peace of mind for you and your employees.

£75.00 for our EvacuRite Annual Inspection
Just **£25.00** for each additional chair on site

* Please note that this inspection does not include any replacement parts or servicing of the chair.

Posturite is the UK's leading provider of ergonomic solutions for the workplace, and a major supplier of health and safety e-learning and training. If you wanted one of our nationally based teams to visit you to demonstrate or discuss any of our extensive range of products, we are more than happy to arrange a convenient time.
