

 **POSTURITE**[®]
2009/2010

Solutions tailored to your requirements

For almost 20 years, Posturite has been helping British companies, government departments and local authorities to protect their employees against back problems and work-related upper limb disorders.

A combination of world-leading products and matchless customer service has helped us to become the UK's leading provider of ergonomic solutions for the workplace with a hugely dominant share of the curative sales market.

We have service level agreements with well over 500 major private and public sector organisations to help them protect their workers and swiftly resolve health issues relating to their working environment.

Our 50-strong team of locally-based account managers and client support executives – many of them trained physiotherapists and all of them qualified DSE assessors – work on a one-to-one basis or with entire departments in Britain's best-known businesses to help prevent or overcome musculoskeletal issues.

It's a unique offering that has helped to reduce absenteeism, increase productivity and improve staff retention in scores of UK businesses.

And it's why, in these difficult economic times, more organisations than ever are turning to us to deliver the products, services and training programs they need to meet their total occupational health, safety and First Aid obligations.

Hopefully you'll find all you need to meet your requirements in this, our 19th annual catalogue. But don't hesitate to give us a call and speak to one of our experienced customer service advisers if you're at all unsure about the products or services that will best suit your needs.

Whether you are a new or an existing customer, large organisation or SME, we look forward to working with you over the coming months.

Ian Fletcher-Price
CEO

WorkRite provides a fully-managed, highly-professional service for companies that don't have the knowledge or resources to meet the ever-increasing demands of health and safety legislation and training. Our multi-level e-learning and consulting packages also provide support for organisations that have the necessary experience but may require occasional specialist back-up.

The Mill Showroom

In January 2004 we moved into our head office at 'The Mill'. Nestling beneath the South Downs next to Berwick Railway Station, we're just 70 minutes from Victoria Station. Since that time we have been visited by over 300 of our major clients who have benefited from the experience. A site visit to our showroom will enable you to try out our products and learn about our services first hand. Feel free to arrange a site visit with your Account Manager or contact Rob Petrides, our Head Office Account Manager, to book an appointment.

Our Pledge

In line with our pledge to provide customers with a high quality personal service, all telephone calls to our main number - 0845 345 0010 are answered by an operator who will connect you to the correct person or department.

Seating

We will not compromise

“If people have back pain, part of the problem is information, awareness and adopting a good posture. But to have a good posture, you need a good chair and desk”.

- Jaume Costa, European Commission

We couldn't have put it better ourselves. We have always maintained that a good chair is an office worker's most important tool.

We won't compromise on quality. So we have exclusive distributor arrangements with some of the finest manufacturers in the world. All the chairs we supply have been designed and manufactured with the needs of the human body in mind.

Movement is the key. A good chair should adapt constantly to the movements of your body so that you don't sit still for too long. It must also be flexible, with settings and adjustments that allow it to be fitted to the user.

If you're unsure which chair would best suit your needs, why not take advantage of your local Posturite Account Manager's expertise to help you choose. They'll also make sure the chair is properly adjusted for your personal comfort once it's delivered.

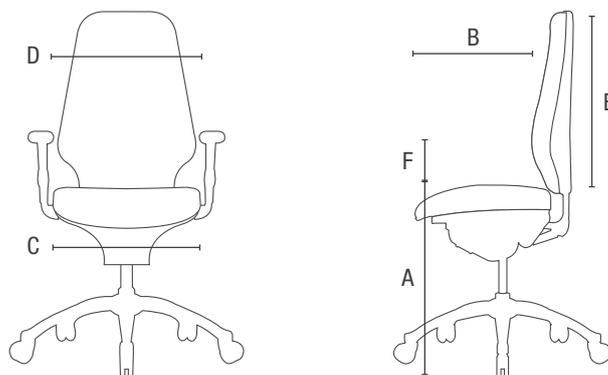

Meanwhile, check out our website where you'll find all sorts of useful tips about the art of sitting.

The human body is not meant to be still

We are designed for movement and variation. Therefore it is a great paradox that many people still sit, or even sit still in static office chairs. Given that our way of life has changed so dramatically and has become increasingly sedentary, movement in a seated position becomes crucial in order to stay healthy and work effectively.

Chair dimensions*

- A Seat height
- B Seat depth
- C Seat width
- D Backrest width
- E Backrest height
- F Height of outermost lumbar support from seat base (lumbar to seat base)

* The chair dimensions stated are approximate and should be used as a guide only

The *Art* of Sitting

<http://www.posturite.co.uk/go/artofsitting>

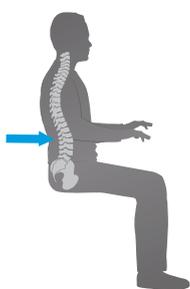

Correct working posture

ALWAYS sit back and move your chair close to the desk to maintain contact between your back and the seat back to help support and maintain the inward curve of the lumbar spine.

Poor working posture

DO NOT perch on the front edge of your seat. DO NOT place your keyboard too far away from you - move it closer to the front edge of your desk.

The most important feature of sitting correctly is to maintain the **INWARD CURVE** of your lumbar spine.

This can easily be achieved by choosing a seat which has a forward tilt of 5°-15°, thereby ensuring your hips are higher than your knees.

This natural posture keeps the pelvis correctly positioned whilst your spine maintains its 'S' shape with weight distributed evenly and balanced across the discs.

Movement

The most important feature of any chair

RH Logic 400 / 300

The RH Logic 400/300 is one of our most popular chair ranges thanks to its ergonomic features and outstanding durability. The RH Logic 400 has a high back, the RH Logic 300 a lower back. Both are based on 2PP, RH's unique philosophy of active sitting.

Each chair is available in different fabrics, varying seat sizes, as a 24-hour chair, in an ESD-approved variant and in a version with extra comfortable pads. The Logic 400/300 is easy to adjust and its controls are easily accessed. The angle of the backrest can be adjusted separately, while the chair maintains all of its basic settings even when you use the tilt mechanism.

The 2PP philosophy of ergonomics

RH Chairs have their own philosophy of ergonomics based on the two important principles of upright posture and active sitting. These principles improve breathing and circulation and stimulate the muscles. The philosophy is evident in the RH Logic 400/300 through the unique "two-point principle" or 2PP, which ensures that your body receives the variation and support it requires as you move. Because the chair's basic settings do not change, this helps you to do more and perform better.

An environmentally intelligent chair

All chairs from RH are as kind to the environment as they are good for the body. Like all RH chairs, the RH Logic 400/300 is 100 per cent recyclable. Many of its components are made from recycled materials, their manufacturing processes use low energy technology and, when your RH Logic 400/300 has come to the end of its working life, it can be returned for recycling.

Exchangeable pads

The seat and backrest pads are exchangeable - so you will not need to replace your chair just because the upholstery needs to be changed. This benefits both your wallet and the environment.

Guarantee

An RH chair is built to withstand stress and to last. Before it leaves the factory it goes through rigorous tests and checks. For this reason, we also provide a five-year guarantee on the RH Logic 400/300. In addition, the RH Logic 400/300 has been tested and approved in accordance with Mbelfakta EN-1335.

RH Logic 400

RH Logic 400 comes as standard with lumbar pump, castors for soft floors, base in silver aluminium and 8S Class A armrests (Adjustable in height and width).

0380203	RH Logic 400 No Neckrest Grp3	£766.00

RH Logic 400 24-hour

A chair that is used all day long naturally needs to be extra comfortable and durable. RH Logic 400 24 hour has an extra wool layer in the seat and back to enhance ventilation and comfort. Current upholstery options are either leather or 24/7. Otherwise the control room chair has the same features as the standard chair. This means that the fabric and the pads can be changed easily. RH Logic 400 is tested and approved to EU standards (EN 1335, compliant with ISO 7173 for control room chairs). The guarantee is two years.

RH Logic 400 24hr comes standard with lumbar pump, castors for soft floors and base in silver aluminium, and can also be equipped with a range of options such as neckrest and armrests.

RH Extend

The RH Extend is a user friendly, ergonomic and durable chair range. Because the RH Extend is easy to adjust, it is ideal for workplaces where several people use the same chair or where it is necessary to make quick adjustments. All controls are conveniently located on the right while all adjustable parts of the chair are clearly marked. The design of RH Extend is based on 2PP, RH's unique philosophy of ergonomics (see page 3).

Four versions of the RH Extend are available, along with a range of accessories.

RH Extend 120 - Large Back

The RH Extend 120 offers a backrest and seat angle that move simultaneously when you change your position. The chair maintains its basic settings regardless of whether you lean forwards or backwards or whether you lock or release the tilt mechanism.

RH Extend 100 - Medium Back

Same functions as RH Extend 120 although with a lower backrest.

RH Extend 220 - Large Back - New for 2009!

RH Extend 220 has a tilt mechanism and backrest that can be adjusted separately. The back plate can be angled precisely according to individual preference, making this a uniquely adjustable and user-friendly chair.

RH Extend 200 - Medium Back - New for 2009!

The RH Extend 200 offers the same functions as RH Extend 220 but with a lower backrest.

Exchangeable pads

The seat and backrest pads are exchangeable - so you will not need to replace your chair just because the upholstery needs to be changed. This benefits both your wallet and the environment.

Guarantee

An RH chair is built to withstand stress and to last. Before it leaves the factory it goes through rigorous tests and checks. For this reason, we also provide a five-year guarantee on the RH Extend.

In addition, the RH Extend has been tested and approved in accordance with Mbelfakta EN-1335.

RH Ambio Black

If you spend a lot of time in your chair at work, you'll already know how important it is to be comfortable. But comfort is not merely a matter of posture. It is also about temperature and ventilation. That is why RH has developed RH Ambio, a completely new kind of chair that is not only ventilated to maintain a consistent temperature, but which helps you sit properly and as a result feel much better. Discover RH Ambio. The chair that breathes.

RH Ambio can be adapted for almost any working environment and user. The chair is available in four basic models with a wide variety of options.

RH Ambio 120 - Large Back

The RH Ambio 120's seat and back angle move in tandem when you release the knee-tilt mechanism. The basic settings still remain constant. With its single lever control, RH Ambio is a practical, easy to use, ergonomic work chair. Height adjustment is standard in the chair, arms and neck rest. The knee-tilt mechanism can also be locked in any position.

RH Ambio 100 - Medium Back

The same as RH Ambio 120, but with a lower backrest.

RH Ambio 220 - Large Back

RH Ambio 220 has an independent seat and back angle adjustment. By releasing the knee-tilt mechanism, you can vary your posture smoothly between a forward or reclining position- while the basic settings always remain constant. The backrest angle can also be set at any position to ensure perfect support for your entire back. Another advantage of this is the ability to open up the hip angle while seated. Height adjustment is standard in the chair, arms and neck rest. The knee-tilt mechanism can also be locked in any position.

RH Ambio 200 - Medium Back

The same as RH Ambio 220, but with a lower backrest.

Ambio Black Edition

Elegance and aesthetic appeal begin, continue and end with black: Black-tie. The little black dress. Even nature itself has grasped the concept and contributed the black panther. And naturally, the chair world deserves its own equivalent. This is why the RH Ambio Black edition was launched.

RH Ambio

Chair Model	100/200	120/220

RH Activ 2 & 3

The Activ 2 & 3 is RH's basic chair model. It is the starting point for how a chair should be designed. It features all the fundamental ergonomics you need to feel good. Not only is it simple to use and adjust, it is also one of our most flexible models. The RH Activ can be adjusted entirely in line with your individual needs and particular environment. Which calls for a tremendous range of options. The RH Activ offers all this. To start with you have a choice of 3 backs and 2 seats. Optional extras include numerous height adjustable gas stems, different foot supports, upholstery etc. Everything can be mixed and matched. With such a wide choice the RH Activ offers individuals of virtually every shape and size the chance to take the first step to healthier sitting. What more can we say except please be seated.

The chair that suits everyone. The backrests of our chairs are readily adjustable, flexible and tapered to enable you to move your arms freely and unhindered when working. Ergonomically designed the backrest provides excellent support for the whole of your lower back. The RH Activ 3 features additional support in the form of our unique Tvedt cushion. This also gives your chest, upper back including your shoulder blades and shoulders extra support. The seats are designed to deliver excellent pressure distribution and strain relief. The rear section has a level surface to provide correct support for your buttocks. The front of the seat has a waterfall edge to reduce pressure on the underside of your thighs. Everything has been carefully considered and evaluated to ensure that together, every part gives you the best possible comfort and support.

RH Activ 2

RH Activ 2 has a shaped back with pronounced support for the curve of the back. The backrest narrows towards the top to allow greater freedom of movement. The chair comes standard with a base in grey-lacquered aluminium and castors for soft floors.

RH Activ 3

RH Activ 3 has a shaped back with pronounced support for the curve of the back and extra padding to provide support between the shoulders. The backrest narrows towards the top to allow greater freedom of movement. The chair comes as standard with a base in grey-lacquered aluminium and castors for soft floors.

Guarantee

An RH chair is built to withstand stress and to last. For this reason, we also provide a five-year guarantee on the RH Activ.

RH Activ 2 & 3

Chair Model	Activ 2	Activ 3
Backrest Width	410 mm	440 mm
Backrest Height	360 mm	450 mm
Seat Width	480 mm	480 mm
Seat Depth	460 mm	460 mm
Seat Height	385-515 mm	385-515 mm

RH Activ follows your every movement and is as comfortable as it is ergonomic. Quite simply because it – like all our chairs – is based on 2PP, our philosophy of active sitting. You need only adjust one single lever, which is easy to use even while sitting in the chair. Thanks to its simplicity and ergonomic design, RH Activ is ideally suited to most work environments, such as offices and all other types of commercial interiors.

0322103	RH Activ 2 Grp 3	£455.00
0323103	RH Activ 3 Grp 3	£494.00

RH Logic 3 & 4

RH Logic is a durable and highly adjustable range of chairs suitable for a wide range of working environments and users, including those who sit for long periods. RH Logic is designed on the basis of 2PP (see page 3), our unique philosophy about the importance of flexible in sitting. The backrest can be adjusted separately, while all basic settings are maintained, even when using the tilt mechanism. The RH Logic also has an adjustable lumbar support. The RH Logic is available in two sizes.

The RH Logic is available in several basic variants. All can be equipped with various accessories and extras.

RH Logic 3

RH Logic 3 has a moulded back with lumbar support for the curve of the back and extra padding to provide support between the shoulders. The backrest narrows towards the top to allow greater freedom of movement. The chair is supplied as standard with a lumbar pump, sliding seat, base in grey-lacquered aluminium and castors for soft floors.

RH Logic 4

The RH Logic 4 has as a high backrest with a pronounced lumbar support to enhance comfort. The backrest narrows towards the top to allow greater freedom of movement for the upper body. The chair is supplied as standard with an adjustable neckrest, a lumbar pump, sliding seat, base in grey-lacquered aluminium and castors for soft floors.

RH Logic 4 Exclusive

The seat and backrest of the RH Logic 4 Exclusive have thicker padding and stitched seams. A high backrest with padding between the shoulder blades provides excellent support. The chair has a pump adjusted lumbar support, a sliding seat, a graphite aluminium base and castors for soft floors. In the Combi version, fabric and leather can be combined as required.

RH Logic 4 Elegance

The RH Logic 4 Elegance offers the same specification and features as the Exclusive, but with a leather-upholstered back-shell.

Guarantee

An RH chair is built to withstand stress and to last. For this reason, we also provide a five-year guarantee on the RH Logic 3 & 4.

RH Logic 3 & 4

HÅG

HÅG Capisco

Do you ever wonder which sitting position is the best? It's always the next one! An ergonomic chair is a chair that naturally follows you as you move to the next sitting position. It must obey the minor and major movements of the body and be at rest when the body requires it. When the chair follows the body it means you can concentrate on your work, at the same time as the body gets the appropriate nourishment for the active muscles. You are moving your entire body without being aware of it.

HÅG Capisco is perfect for those of you who like the unconventional. No other work chair is so well adapted to working surfaces with different heights or to height-adjustable worktables.

The design of this chair is based on the dynamic sitting position of the horseman. With a HÅG Capisco you can sit equally well forward or sideways, and you have a wide reach. The collection has won several prizes for its unique functions and design.

The seat of the HÅG Capisco is made from recycled bumpers and plastic packaging from household waste. The plastic components are labelled by type for at-source-sorting. Both the production process and the choice of materials satisfy the most stringent environmental requirements.

The HÅG Capisco can be adapted for almost any working environment and user. The chair is available in three basic models:

HÅG Capisco 8105

Stool Only

HÅG Capisco 8106

Stool & Back Rest

HÅG Capisco 8107

Stool, Back Rest & Headrest

Guarantee

HÅG guarantees products against all defects and manufacturing faults for a period of 10 years from date of production. This guarantee includes fabrics and leather. The guarantee does not include any deterioration from "fair, wear & tear". Lifetime guarantee on gas lifts. HÅG guarantee to provide spare parts minimum 10 years after the chair's manufacturing date.

HÅG

HÅG H09 collection

HÅG H09 Inspiration

HÅG H09 Inspiration is a modern chair that has an almost transparent look because of the unique textile in the back and it acts as visual ventilation in the room where it is placed. The anatomically proportioned and adjustable back cushion provide the back with the right support and give the upper torso a broader radius of action. Slide it up and down to fully customize your sitting experience.

HÅG H09 Classic

HÅG H09 Classic is a timeless and robust office chair that can stand up to being used by three shifts every single day. When you look at it, the impression you get is that it's strong, solid and not least reliable. And that is exactly what you feel when you sit on it. The back cushion deliver full comfort to your HÅG H09. Slide it up and down to fully customize your sitting experience.

HÅG H09 Excellence

With upholstered back and seat in top quality leather HÅG H09 Meeting Excellence is the ultimate in seating. It is an uncompromising chair created by and for perfectionists. The anatomically proportioned and adjustable back cushion provide the back with the right support and give the upper torso a broader radius of action. Slide it up and down to fully customize your sitting experience.

HÅG H09 Meeting

The perfect complement for lounges, conference and meeting rooms, or as a visitor chair in your office. Its elegant and light design ensures an exclusive impression in the meeting room whilst encouraging movement as with all other HÅG chairs.

HÅG Futu

HÅG Futu provides the best of two worlds; an advanced interior based on HÅG's new inBalance technology, and with its clean and continuous lines HÅG Futu is more a piece of furniture than a technical aid.

Chair Model	Futu
Backrest Height	600 mm
Seat Width	485 mm
Seat Depth	380-460 mm
Seat Height	400-550 mm

HÅG Futu

It is simple, easy to use and just as well suited to large office landscapes as to individual offices. Even though HÅG Futu is fully functional, it nevertheless lacks long dominating levers and ugly dials that disturb the visual expression.

HÅG Futu is the first chair with the newly developed technology we call inBalance. inBalance is a seat mechanism that ensures that you sit extremely comfortably and in balance, regardless of whether you are small and light or very tall and heavy. The chair follows your every movement – either stretching backwards or leaning forwards to your desk. And best of all, you are in control of the chair, not vice versa. Want to know which position is the best? It's always the next one! An ergonomic chair is a chair that follows you naturally into the next sitting position. It must obey the body's small and large movements and stay still when that is required, just like HÅG Futu.

0520001	HAG Futu Futuknit No Armrests	£409.00
0520031	HAG Futu Back & Total Colour Seat	£420.00

HÅG Conventio collection

Often the time spent in a meeting can be more tiring than ordinary office work. This is why meeting rooms should have chairs which encourage movement and variation in the context of a meeting, in the same way that work chairs should encourage movement and variation at the workstation. We dare to claim that HÅG Conventio is a work chair that is revolutionizing the standards of seating comfort not only at conferences, but also in places such as canteens, cafés, libraries and your own home.

Kango Stand Up Stool

- ▶ Specially designed for industry and laboratory use
- ▶ Veritable ergonomic design
- ▶ Allows user to work while standing, relieved of 2/3 of body weight
- ▶ Extremely stable, easy to move
- ▶ Takes up little floor space, does not interfere with user movements
- ▶ Weight capacity: 130kg
- ▶ Height range: 700 - 900mm

9710101 Kango Stand Up Stool £199.99

Score Sit-Stand Stool Steady

This sit-stand stool provides the solution for work that requires alternate sitting and standing positions. Also they are ideal for workplaces where there is a lack of leg space. To be able to work comfortably and without strain, your Sit-Stand Stool must be adjusted to the required working height.

- ▶ Adjustable sitting height and seat angle
- ▶ ESD version available
- ▶ Height adjustment 660-830mm
- ▶ Work surface height 900-1000mm

3809119 Sit Stand Stool Steady £215.00

Sali Multi Adjuster

The development of the saddle chair formed around the sound ergonomics of the riding saddle. The ergonomic saddle chair improves posture, soothes backaches and stands out as a distinctive piece of furniture at home or in the office.

As a great ergonomic alternative to a normal workstation, combine a saddle chair with a height adjustable table.

- ▶ Weight capacity: 120kgs
- ▶ Available in Black, Brown or Grey Leather

9739000 Salli Multiadjuster Chair Black Leather £353.60

Please specify colour. Brown, black or grey.

HÅG Balans Vital

UK Exclusive!

HÅG Balans Vital demonstrates an alternative way of sitting. The concept of a 'kneeling' chair, was one of the very first to embody ergonomic principles of posture seating. By sitting with the legs at an angle and your knee joint far below your hip joint your pelvic angle is open allowing your spine to maintain its natural curve.

- ▶ Great freedom of movement
- ▶ 5-star base
- ▶ Gas strut provides adjustable seat height

0509102BLA HÅG Balans Vital Black £299.00

Putnams Stool

Designed for the management of pain, this product promotes fatigue-free sitting and correctly aligns the spine. Ideal for home and office use and is fully adjustable with castors for easy movement. They are made of a blond beech wood and the seat and kneeler come in a variety of colours.

- ▶ Multi-swivel castors
- ▶ Back size: 370(w) x 490(l) x 80(d) mm
- ▶ Seat size: 450(w) x 390(l) x 50(d) mm
- ▶ Coccyx version available

9793000BLA Putnams Standard Kneeling Chair Black £120.16

9793000BLU Putnams Standard Kneeling Chair Blue £120.16

9793000GRE Putnams Standard Kneeling Chair Grey £120.16

Wave Stool

The Wave Stool helps you sit upright in a natural relaxed way. It also helps you use your own sense of balance, rather than propping you up with a backrest like most seats do. It is surprisingly comfortable and invigorating, and gives you more freedom to move than most other seats.

97581000 Wave Stool Low (Select Colour) £185.00

97582000 Wave Stool - Medium (Select Colour) £185.00

97583000 Wave Stool - Tall (Select Colour) £190.00

97584000 Wave Stool - Extra Tall (Select Colour) £195.00

Please specify colour when ordering.

RH 192

A range of chairs intended primarily for industrial, laboratory, dental and healthcare environments. The RH 192 has simultaneous seat and backrest adjustment. Its wide range of options makes it easy to adapt the chair to individual needs and work tasks.

Chair Model	RH 192	RH Draughtsman
Backrest Width	410 mm	410 mm
Backrest Height	360 mm	360 mm
Seat Width	480 mm	480 mm
Seat Depth	460 mm	460 mm
Seat Height	400-525 mm	590-830 mm

RH 192

Shaped back with pronounced support for the curve of the back. The backrest narrows towards the top to allow greater freedom of movement. The chair comes as standard equipped with a base in black polyamide and castors for soft floors.

RH 192 Draughtsman

The Draughtsman is suitable for work tasks such as counter and reception duties. The chair comes with a high gas stem for elevated work heights and footring.

0351503	RH 192 (RH2/RH2) No Armrests Grp3	£317.00

Desking

Standing up for a healthier lifestyle

The human body wasn't designed to sit for long periods. Yet millions of people have to do just that, day in and day out, at work putting undue strain on their lumbar spines.

Fortunately we've got the answer. Our height adjustable desks allow people to change regularly between a seated working position and a standing one. This has a number of proven benefits:

- ▶ Improved blood circulation
- ▶ Improved concentration
- ▶ Relief from a static posture
- ▶ Flexibility to adjust your working position to the task in hand
- ▶ Ability to move and change position without interrupting work flow
- ▶ Increased alertness and productivity

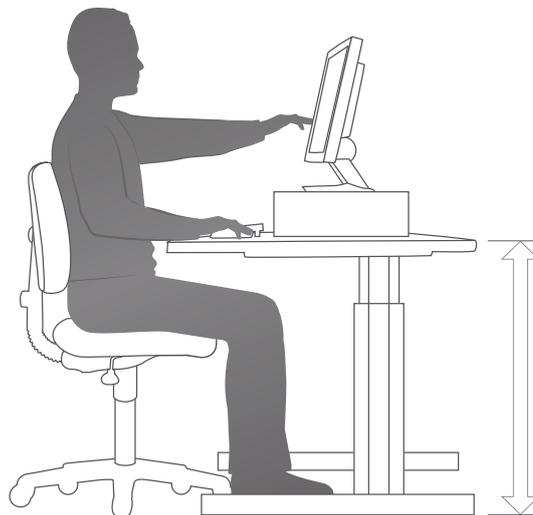

Our high quality, functional workstations are available for individual users through to complete contract installations.

So don't just sit there – stand up for your health!

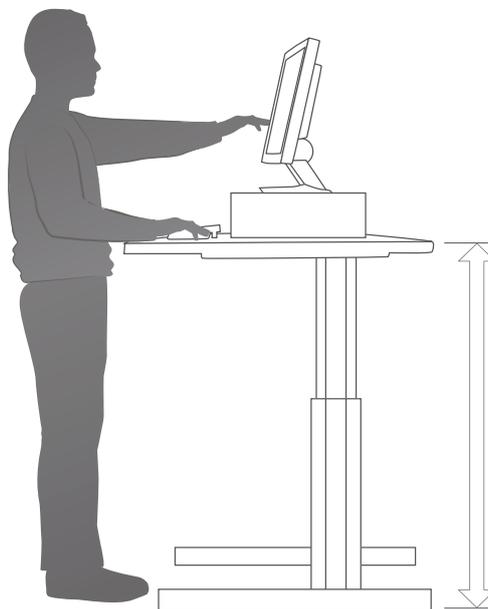

Stand up for your health

DeskRite®

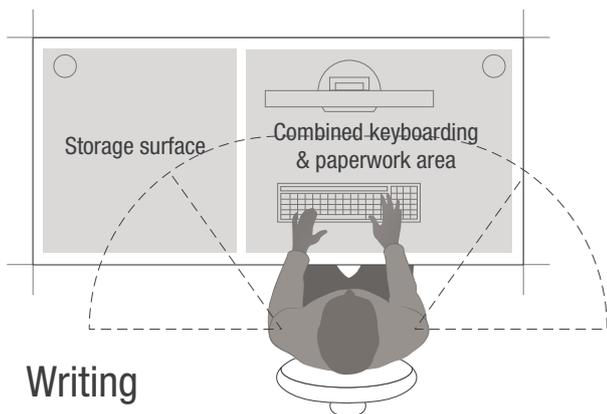

The human body wasn't designed to sit for long periods.

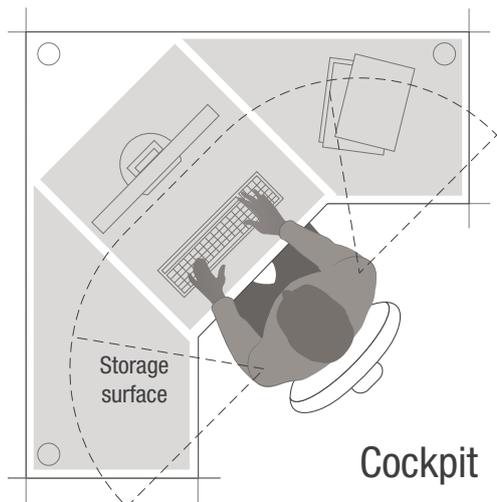

Our height adjustable desks allow people to change regularly between a seated working position and a standing one.

**Four ranges of
Height adjustable desking**
offer a range of functions to suit various budgets

Writing

Cockpit

What desk shape?

When choosing the most suitable desk shape, a decision should be made based upon the users work tasks as well as the space available for the workstation.

Where the user's work is predominantly computer based (with minimal paperwork) a rectangular shape may be more suitable.

For users with a combination of computer and paperwork, a corner shape may be more suitable so that they have defined working areas for individual tasks.

BS EN ISO 9241-5 Employer requirements

Paragraph 5.2.3 — Standing and Sit/Stand Postures

“The standing posture is recommended if it can alternate with a sitting position. This can be achieved if the workplace comprises either workstations or work surfaces for sitting and standing postures or an adjustable workstation that can accommodate the same person in the seated and standing positions.”

DeskRite 500 - Electric height adjustable desking

Simply the best range of electric 'sit-to-stand' desking available in the UK today. Changing the desk height is smooth and simple, whilst sophisticated software guarantees the desk is always perfectly level.

DeskRite 300 - Basic electric height adjustable desking

Our basic electric range is available in two desktop shapes (standard rectangular 'writing' desktop and 'cockpit' corner workstation).

DeskRite 200 - Crank height adjustable desking

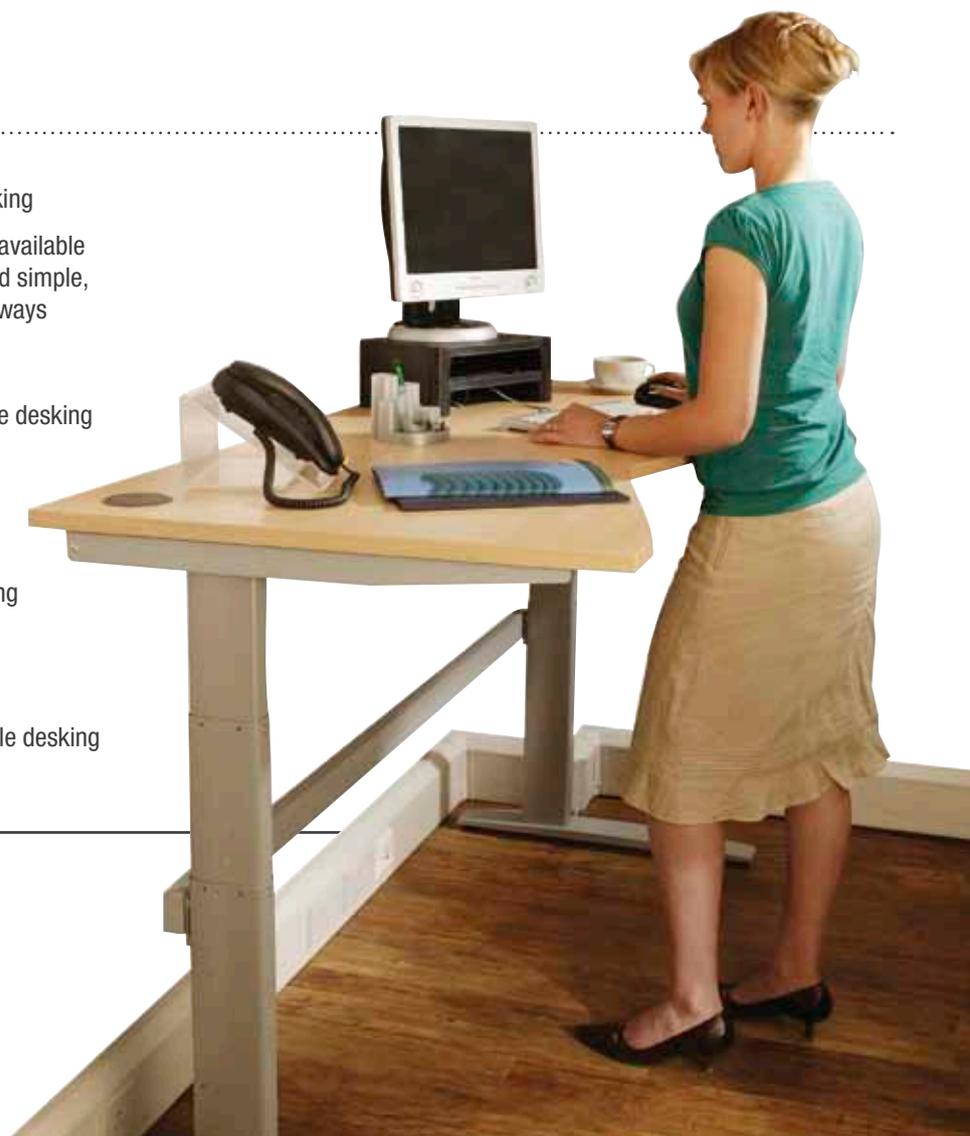

Represents the most economical way to provide height adjustable desking.

DeskRite 100 - Set and forget height adjustable desking

The simplest solution to height adjustable desking

3-Day turnaround from stock

Individual desk orders delivered flat packed for self assembly. Larger orders professionally installed.

DeskRite 500

Electric Height-Adjustable Desking

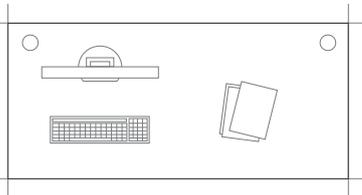

Simply the best range of electric 'sit-to-stand' desking available in the UK today. State-of-the-art electronics make changing the desk height smooth and simple, while sophisticated software guarantees the desk is always perfectly level. It's even clever enough to compensate for uneven loads on the desk top.

- ▶ Height range: 640 - 1300mm
- ▶ Maximum liftable weight: 140kg
- ▶ 5 year guarantee

Writing

The Writing desk is ideal for conventional use with flat screen monitors, laptops or traditional CRT monitors.

Desk mounted power unit.

- ▶ Available in 2 or 4 plug sockets

9760005	Power On Top (Desk Mounted 2 Power Unit)	£39.95
9760006	Power On Top (Desk Mounted 4 Power Unit)	£41.00

Home Working

Positive Position Make sure you're protected when the inspector comes to call

At least one in eight UK employees - around 3.5 million people - already work from home, according to the TUC.

But this figure is certain to soar over the next few years as further improvements in communications technology come on stream and companies look to cut costs by offloading expensive office space.

It represents a massive new challenge for the legions of health and safety professionals charged with ensuring that companies continue to meet their legal responsibilities to their employees.

The law draws no distinction between an employer's responsibilities to protect the health and wellbeing of their office-based staff and those associated with people working at home or on the move.

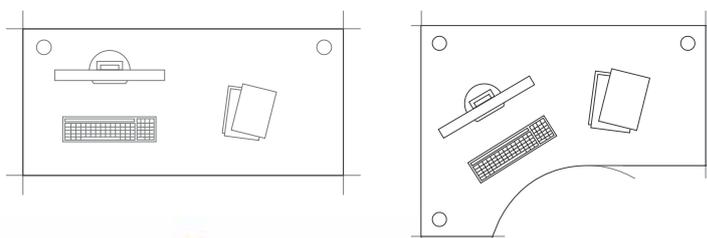

It's important to get it right. The HSE polices the system and its inspectors have the right to visit workers' homes to check that any health risks and hazards are being properly managed.

That's why we are increasingly being called upon to help large organisations plan and deliver their home working policies.

Don't take risks with your employees' health and your company's reputation. Let us provide you with the systems, products and training to ensure you meet all current regulations.

Sense Desking

Sense is a unique system of office workstations and accessories from Herman Miller. At its heart is a groundbreaking design that requires absolutely no tools for assembly or dismantling. Components simply lock, click, or snap into place, so it's quick to order, quick to build and easy to reconfigure.

There's a wide range of table shapes and sizes – rectangular, wave and 120 degree. These can be used alone, or be extended to create larger configurations featuring extensions, returns, satellites and meeting ends.

There's also a full range of support products, including screens, tool bars, CPU holders, shelves, cable management products and paper-handling accessories.

Design to connect | Design to build | Design to play | Design to grow

Ambus 3 Workstations

Ambus 3 is a comprehensive range of high quality office furniture available in both MFC (melamine) and veneer finishes, and combinations of veneer tops / drawer fronts / doors with slate or zinc MFC vertical panels.

Desks are offered with panel ends or on metalframes. The enormous range of possible variations enables Ambus 3 to be specified to suit office interiors of all types.

- ▶ Available in multiple finishes and profiles
- ▶ Please call for pricing and product literature

Brevis Workstations

Brevis is contemporary, innovative, flexible and exceptionally easy to assemble and reconfigure. Frames are unhanded to minimise the number of different components, and fixed-height and adjustable height frames are available.

The extensive choice of work surface shapes, in a wide range of both MFC and natural veneers, provides for conventional layouts and innovative configurations to suit new working practices.

Workstation Accessories

Prevention is the key Banish work day aches & pains

The Posturite Sloping Board holds a special place in our affections. It was our very first product back in 1991 and is still a worldwide best seller.

But since our CEO invented the multi-position sloping board as a solution to his own neck pain, we've added dozens more highly functional and cost-effective accessories to help you create your ideal adjustable working environment.

Each is designed to prevent and relieve workaday aches and pains, including headaches, neck and shoulder fatigue and eye strain.

Slopes, document holders, monitor arms, screen raisers, wrist and foot rests, ergonomic mice, laptop packs and so on all help to ensure you can adopt the working position and posture that is right for you.

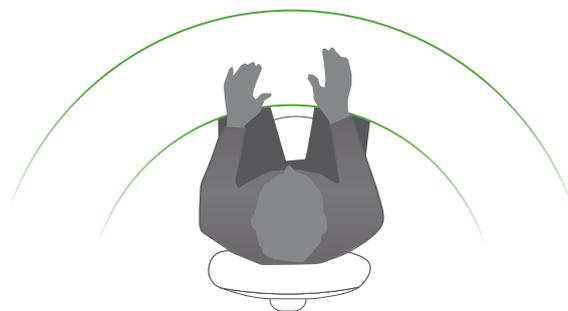

Each year, thousands of new cases of work related upper limb disorders and back pain require some form of specialist intervention. Around 8.2 million working days were lost last year as a result..

By creating an ergonomically sound workstation, you can avoid becoming another statistic.

Helping you to create your ideal adjustable working environment

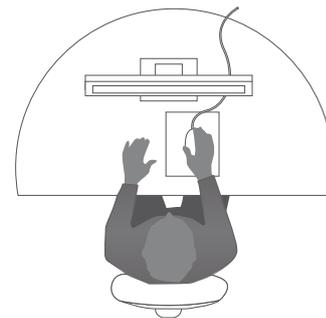

Re-arrange your desk set-up within the full reach zone and place your monitor at full arms length.

Re-arrange your desk within the easy reach 'swing space' (your primary work area).

REMEMBER, it is perfectly ok to re-arrange your desk set up throughout the day as your tasks change.

REMEMBER, it is important that what you look at most is in front of you.

Check our weblink to

The *Art* of Sitting

<http://www.posturite.co.uk/go/artofsitting>

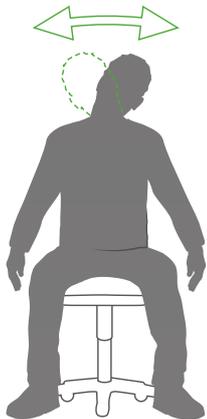

Why stretch?

No matter how well the workstation is designed, problems may arise where work organisation is poor or disrupted. Working at a computer often involves few changes in body position. This lack of movement can lead to muscular aches and pains.

Below are a selection of exercises to help reduce aches and pains in the workplace.

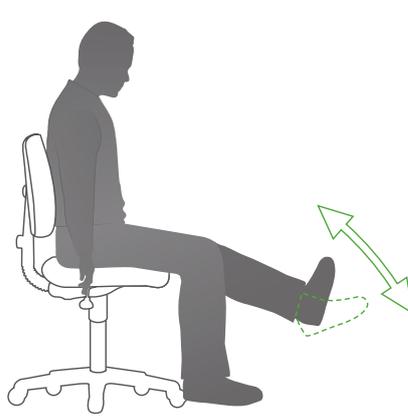

Reduce aches and pains

- ▶ Regularly vary work tasks, looking at organisation of the working day
- ▶ Break up 'on-screen' activities with micro-breaks – tasks which involve movement, stretching and changes to body position
- ▶ Trying standing during some tasks and moving away from the workstation, for short periods, where possible

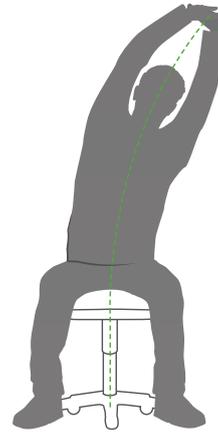

Neck & shoulders

Drop head slowly to one side, taking ear towards shoulder until stretch is felt. Hold for slow count of 10. Repeat 3 – 5 times to each side.

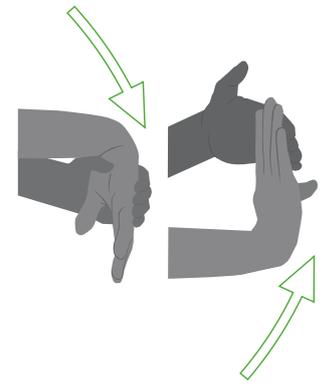

Leg & ankle

Lift ankle clear of floor. Alternately flex and extend ankle in a pumping action. Repeat 10 times with each ankle.

Back

Interlace fingers and lift arms above head, keeping elbows straight. Pressing arms back, slowly stretch to one side. Hold for slow count of 10. Repeat 3 – 5 times to each side.

Wrist, hand & forearm

Holding upper part of hand with other hand, slowly bend wrist down and then upwards until stretch is felt at each extreme. Hold each for slow count of 10. Repeat 3 – 5 times.

MultiRite®

Document Holder & Writing Slope

Our unique two-in-one document holder and writing slope that helps to reduce workaday aches and pains by allowing you to read, write or type without risking awkward twists or turns. Unique to Posturite, it's still our best-selling product – a must-have accessory for any workstation.

- ▶ Elegantly simple to adjust height and angle
- ▶ Single pivot point at the front and infinite one touch adjustment at the rear
- ▶ Storage tray
- ▶ Sliding top provides 2 different working positions
- ▶ Allows you to make optimal use of your workspace
- ▶ Rubber feet ensure stability
- ▶ Available in Mini, Standard and Large sizes

Mini MultiRite Version

Mini MultiRite

Designed for space-saving smaller keyboards.

Standard MultiRite

The original version, elegantly simple to adjust both height and angle.

Large MultiRite

Designed to accommodate the extra large Bloomberg keyboards and peripherals such as the RollerMouse Pro.

Dimensions	Mini MultiRite	Standard MultiRite	Large MultiRite
Length	360 mm	510 mm	560 mm
Width	350 mm	350 mm	350 mm
Front Height	80 mm	80 mm	80 mm
Back Height	170 mm	170 mm	170 mm
Weight	5.2 kg	5.5 kg	6.78 kg

Closed position for use as a document holder

1104	Standard MultiRite	£99.00
1104M	Mini MultiRite	£89.00
1104L	Large MultiRite	£119.00

Adjustment options

Open position for use as a writing slope

The Original Posturite Board

Posturite Boards prevent and relieve aches and pains including headaches neck and back pain shoulder fatigue and eye strain thereby improving work efficiency. Available in a large and mini version.

The unique magnetic facility enables the user to hold papers at the optimal position for correct posture.

- ▶ Rubber feet ensure stability
- ▶ Choice of angles ranging from 18 - 35°
- ▶ Large: 575(l) x 445(w) mm
- ▶ Mini: 380(l) x 400(w) mm

Book Holder

Book Ledger

Keyboard Holder

Keyboard Holder

The Keyboard Holder attachment is for use with Posturite Boards and is designed specifically for wheelchair users and the visually impaired. The Keyboard Holder attaches all standard keyboards to Posturite Boards for ease of typing and to save space.

Dual Purpose Book Holder

Sits anywhere along the top edge of the board to support books and such at eye level. It incorporates a small ledge to store pens.

Book Ledger

Hooks onto the board providing a half inch lip to support heavier books or files. This ledger can be positioned anywhere and can also create a larger work surface with a partial overhang when required.

Posture Blocks

Stackable monitor blocks for CRT monitors.

- ▶ Available in 1" or 2" height
- ▶ Maximum weight 55kg
- ▶ Dimensions: 295(l) x 295(w) mm

6099 Posture Blocks 1" Grey £4.95

6100 Posture Blocks 2" Grey £9.95

6105 Posture Blocks 1" Black £4.95

6106 Posture Blocks 2" Black £9.95

6105SIL Posture Blocks 1" Silver £8.25

6106SIL Posture Blocks 2" Silver £10.95

Monitor Solutions

These workstation solutions provide the ultimate flexibility with a modular system of components that when combined create a versatile workstation and free up valuable desktop space.

Follow these steps to envision your ultimate monitor solution. However because each situation is unique, phone us for advice and we'll be more than happy to help find the best solution for you.

1. Choose the monitor arm that best suits your situation.
2. What height post do you require?
3. How will you fix the arm to the desk?

1. Choose your Monitor Arm

Pick the monitor arm that best suits your requirements. Each arm has various functions and specifications that suit varying workstation environments. All monitor arms come with Quick Release as standard. The Quick Release mechanism allows monitors to be replaced quickly and efficiently.

Wishbone

Wishbone, the best selling monitor arm in UK, is a design classic. It is a true system arm available in 3 reach lengths which make it the ideal choice for multi-screen applications such as trading floors and control rooms. The Wishbone can be installed at different heights to suit different environments.

- ▶ 180° rotation of monitor screen
- ▶ Load capacity: 12kg / Reach: 425mm
- ▶ 400mm post recommended

1820004	Wishbone Arm Quick Release Silver	£120.20
1820027	Wishbone Back-to-Back Arm Quick Release	£292.90

Rodney Monitor Arm

Rodney removes the need for a separate arm and post by incorporating the two components into a single piece. It comes complete with desk clamp, cable management and security features as standard.

- ▶ Available in 3 colours: Silver / White / Black
- ▶ Load capacity: 8.5kg
- ▶ Reach: 492mm
- ▶ Max Height: 470mm

1822100	Rodney Monitor Arm, Post & Clamp	£140.00
---------	----------------------------------	---------

Giselle Gas Lift Arm

Giselle is an elegant post-mounted arm that combines strength with ease of movement. Thanks to an internal gas strut, Giselle gives users fingertip control. It is therefore the ideal choice for workspaces occupied by different users such as hot desks and call centres. For slatwall mounting, Giselle X can be used, as its horizontal forearm sets a base for screen height.

- ▶ 240mm vertical movement
- ▶ Load capacity: 8.5kg / Reach: 520mm
- ▶ 200mm post recommended

1820060	Giselle Gas Lift Arm Silver	£160.00
1822046	Giselle arm, 200mm post, integral clamp	£185.80

Giselle X Gas Lift Arm

The Giselle X gas lift monitor arm has been designed for specific use with toolbar or slatwall mounts. The toolbar bracket is designed to work on the CBS toolbar, while the slatwall bracket will work on most slatwall screens.

- ▶ Load capacity: 8.5kg
- ▶ Reach: 555mm
- ▶ No post necessary

1820078	Giselle X Gas Lift Arm	£160.00
---------	------------------------	---------

Zorro

Zorro combines function with beautiful design. Its diagonal profile means that Zorro can be mounted on shorter posts to give cleaner lines in the workspace. This design also allows Zorro a wider range of horizontal movement of up to 460mm. The innovative ball joint gives the user full control over the screen angle to increase comfort and reduce glare.

- ▶ Load capacity: 8.5kg / Reach: 460mm
- ▶ 300mm post recommended

1820025	Zorro Arm Quick Release Silver	£115.10
1822021	Zorro Arm, 300mm Post & 38mm Desk Clamp	£165.50

Daisyone

Daisyone embodies perfection in geometrical design. The precision engineered Daisyone screen position allows for two screens to be mounted at the same height on a single post, without the need for a separate back-to-back bracket. This geometry also enable daisy to fold to a compact size, which means less packing and a more cost-effective logistics. Used on the quad post, Daisyone also offers a 180 degree stop function, preventing potential damage to privacy screens.

- ▶ 160° vertical tilt / 180° horizontal movement
- ▶ Two arms can be mounted on one post, without the need for back-to-back brackets
- ▶ Load capacity: 8.5kg / Reach: 505mm

1823002	Daisyone Arm, 500mm Quad Post & Clamp	£169.00
1823003	Daisyone Back-to-Back Arm Quick Release, 500mm Post & Clamp	£266.00

2. Post Options

Everyone situation is unique. Choose the height of post that best suits your requirements.

As a guide, you will find commonplace recommended sizes under each arm.

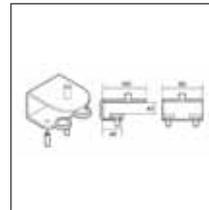

- ▶ Extension studs and other sized posts available
- ▶ Please phone for assistance
- ▶ Not required for Giselle X Gas Lift Arm

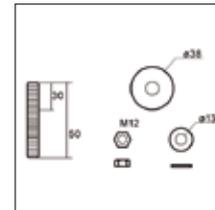

1822016	200mm Post Silver	£25.80
1820057	300mm Post Silver	£32.10
1820010	400mm Post Silver	£36.00
1820058	500mm Post Silver	£39.70
1820065	700mm Post Silver	£57.30

9780004	Ergotron LX Desk Mounted Arm Silver	£110.00

Screen Mate

A sturdy, multifunctional mounting arm for flatscreen monitors. Combines a modern design with many ergonomic advantages.

- ▶ 360° rotation for portrait or landscape viewing
- ▶ Vertical monitor tilt from 20° up to 20° down
- ▶ Side-to-side monitor rotation 180°
- ▶ Telescopic arm - depth 115-390mm, height 0-400mm
- ▶ Expandable up to four monitors with modular mounting system
- ▶ Available with a clamp fitting or with a through desk fitting

3809100	Screen Mate (Monitor Arm with Clamp Fit)	£59.00
3809101	Screen Mate (Monitor Arm & Through Fit)	£59.00

Duoflex CPU Holder

Duoflex Fixed CPU Holder

Duoflex Rotate CPU Holder

The Duoflex CPU Holder saves desktop space with its unobtrusive PC storage & minimal under-desk structure. The clever strap-based design uses a unique tensioning strap to avoid potential damage to the computer casing and by keeping the PC off the floor.

- ▶ Vertical or Horizontal CPU positioning
- ▶ Quick and easy installation if dimension of PC is not known before installation or is likely to change
- ▶ Accommodates PC's up to 1470mm circ.
- ▶ Weight capacity: 25kg
- ▶ Available with a fixed bracket or a rotating (shown) bracket

9760000	Duoflex Fixed CPU Holder	£34.95
9760001	Duoflex Rotate CPU Holder	£67.00

Mobile CPU Basket

Adjustable mobile CPU trolley on robust castors. Manufactured in epoxy polyester coated tubular steel.

- ▶ Mobile adjustable CPU cradle
- ▶ Includes four castors for optimum mobility
- ▶ Free desk space
- ▶ Max weight: 25kg
- ▶ Min size CPU width: 105mm
- ▶ Max size CPU width: 210mm

1820051	CPU Holder with Wheels	£42.40
---------	------------------------	--------

Jaw CPU Cradle

Jaw is a simple and elegant CPU holder that enhances the look of any workspace design. The clamping function of the aluminium body grips tightly to the top and bottom of the CPU to secure it in place.

- ▶ Allows CPU to float below the desk
- ▶ Innovative gravity release mechanism
- ▶ Available with either rotate or slide & rotate (shown) mechanism
- ▶ Max weight: 25kg
- ▶ Min CPU: 90(w) x 290(h) mm
- ▶ Max: 240(w) x 510(h) mm

1820037	JAW Adjustable CPU	£81.00
1822024	Universal Mounting Bracket & Rot Function	£13.30
1820053	Universal Slide & Rotate Kit 350mm	£16.00

Adjustable CPU Cradle

The adjustable cradle accepts most CPU's. Manufactured in epoxy polyester-coated tubular steel. Also available with slide out rotation facility.

- ▶ Fix position of CPU under desk
- ▶ Optional slide and rotate mechanism (shown)
- ▶ Max weight: 25kg
- ▶ Min CPU: 110(w) x 350(h) mm
- ▶ Max: 260(w) x 560(h) mm

1820059	Adjustable CPU Cradle	£41.40
1822024	Universal Mounting Bracket & Rot Function	£13.30
1820053	Universal Slide & Rotate Kit 350mm	£16.00

Clam

Clam is a strong and secure solution for CPUs of any size. Clam's reinforced aluminium frame envelopes the CPU.

- ▶ Fixing bracket optional (shown)
- ▶ Weight capacity: 25kg

Clam 01

- ▶ Min CPU: 90(w) x 250(h) mm
- ▶ Max CPU: 140(w) x 460(h) mm

Clam 02

- ▶ Min CPU: 140(w) x 300(h) mm
- ▶ Max CPU: 240(w) x 560(h) mm

1822008	Small Adjustable CPU Cradle (Clam01)	£104.10
1822012	Large Adjustable CPU Cradle (Clam02)	£118.60
1822024	Universal Mounting Bracket & Rot Func.	£13.30
1820053	Universal Slide & Rotate Kit 350mm	£16.00

Posturite Height Adjustable Footrest

This unique compact design enables the user to adjust the height of the footrest from a sitting position.

- ▶ Adjustable height 75 - 300mm
- ▶ Top of footrest is tiltable

5751 Posturite Height Adjustable Footrest £124.95

Posturite Adjustable Footrest

You need a footrest if you can't place your feet flat on the floor when your upper and lower legs form a right angle. Footrests, if used properly promote a healthy seated posture and increase foot and leg comfort.

- ▶ Sturdy steel construction
- ▶ Individually height adjustable feet: 75mm - 150mm
- ▶ Dimensions: 455(l) x 295(w) mm

5774 Posturite Adjustable Footrest £36.95

Discus

Adjustable gaslift footrest with a central button that can be pushed with your feet to adjust its height from a seated position.

- ▶ Anti-skid modern design
- ▶ 150 - Height adjustment 50 - 150mm
- ▶ 250 - Height adjustment 150 - 250mm
- ▶ Weight capacity: 80kg / 176lbs

3809103 Discus 150 Footrest £97.00

3809104 Discus 250 Footrest £97.00

Adjustable Foot Platform

This footrest is fully adjustable in height and inclination with a removable cover which reveals a compartment for the foot controls of dictating machines.

- ▶ Platform size: 450mm x 350mm
- ▶ Compartment size: 220(l) x 120(w) x 20(h) mm
- ▶ Front height adjusts from: 40mm to 150mm
- ▶ Rear height adjusts from: 70mm to 210mm

5775 Adjustable Foot Platform £56.00

The Master Footrest

Front or back tilting, adjustable foot stool, as recommended by physiotherapists and ergonomists. The Master Footrest is designed to encourage a comfortable position when working at a desk with the feet slightly raised and it lifts weight from the thighs.

The footrest has a metal frame that has a flat stand at the back and angles that provide the tilt for the black resting board. The board has a rough surface and its angle can be changed by pressure on the front or back.

- ▶ Tilt Adjustable
- ▶ Dimensions: 460(l) x 305(w) mm

5701 The Master Footrest £34.95

HÅG Quickstep

A Dynamic tilting footstool, the HÅG Quickstep. The Quickstep gives extra floor height and is far superior to static alternatives. HÅG Quickstep further activates the circulation and stimulates co-ordination. It stretches the calf muscles and gives the soles of the feet a comfortable massage.

5765 HÅG Quickstep Footrest £88.00

Screen Height Adjuster (Retro Fit)

This simple attachable plate can be easily retro-fitted to most screens to give the user the flexibility to adjust the screen to a more suitable and comfortable working level. Rear of screen should have a level surface.

- ▶ 150mm range of height adjustments
- ▶ 10mm height step increments
- ▶ Quick and easy to attach
- ▶ Fits either 100mm or 75mm VESA plates

9820004 Screen Height Riser - Retro Fit £29.99

LCD Privacy Screen Filter

Privacy feature ensures that when viewed from the front the image is perfectly clear but when viewed from either side the image is blurred. Protects the LCD Display surface from damage.

- ▶ Enhances Visual Performance
- ▶ Optical Quality Coated Acrylic

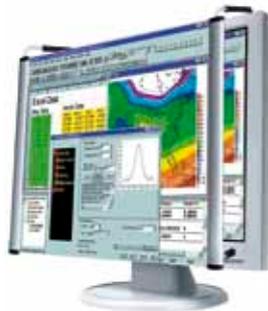

9725001 15" LCD Privacy Acrylic Screen Filter £89.00

9725002 17" LCD Privacy Acrylic Screen Filter £99.00

9725008 19" LCD Privacy Acrylic Screen Filter £134.95

LCD Magnifier

The lightweight, LCD Screen Magnifier adjusts to increase character size by more than double.

9725003 15" LCD Screen Magnifier £89.00

9725004 17" LCD Screen Magnifier £99.00

9725009 19" LCD Screen Magnifier £139.00

Adjustable Anti-Glare Hoods

- ▶ Reduce glare from overhead lighting and sunlight reflection
- ▶ Simple to install with double sided sticky velcro
- ▶ Available for CRT or Flat Screen
- ▶ Flat Screen Hood fits 15.9" - 26.8" monitors
- ▶ CRT Hood fits 12.8" - 20" monitors

3173 Adjustable Hood for Flat Screen £26.95

3171 Anti-Glare Screen Hood for CRT Monitor £22.95

Posturite Keyboard & Mouse Wrist Rest

This wrist and mouse rest supports the wrist in a neutral position.

- ▶ Contoured edges for comfort
- ▶ Foam filled fabric with easy glide surface
- ▶ Available in short (mini keyboard) and standard size

3608 Posturite Wrist Rest 33cm £14.95

3607 Posturite Keyboard Wrist Rest £16.95

3605 Posturite Logo Mouse Pads £9.95

Relax Wrist Rest

Simply place the relax wrist rest in front of the keyboard to prevent incorrect extension of the wrist.

- ▶ Available in short (mini keyboard) and standard size
- ▶ Special self-moulding slow foam allows increased blood circulation

3501 Relax Wrist Rest £19.50

3500 Relax Wrist Rest Short £14.95

Combined Keyboard & Mouse Rest

This wrist rest is ergonomically designed to encourage correct wrist alignment during the use of a keyboard, mouse or trackball. It places the keyboard and mouse at the same level to give improved comfort and features a non-skid base for stability.

1401105 Combined Keyboard & Mouse Rest £69.95

WASP Wrist & Arm Support

Innovative design ensures no loss of circulation to the hands and allows you to glide your hand across the full range of the keyboard and mouse.

- ▶ Wrist and forearm recess
- ▶ Glide your hand across the full range of keyboard and mouse
- ▶ Come as a pair

3510 WASP Wrist & Arm Support (pair) £47.95

Ergo Rest Armrest

The Ergo Rest Armrest just clamps on to the front of your existing desk and adjusts to suit the user.

- ▶ Can relieve repetitive strain disorders
- ▶ Fits desk thickness 15 - 43mm
- ▶ Large clamp option: 34 x 64mm
- ▶ Also available with height adjustability or with an integrated mouse pad

Ergo Rest with mouse pad

3511	Ergo Rest	£83.00
3518	Ergo Rest & Mouse Pad - Standard Clamp	£110.00
3513	Ergo Rest - Height Adjustable	£120.00

Keyboard & Mouse Rest

This Keyboard and Mouse rest attaches to your desk and provides comfortable, padded support for your wrists.

- ▶ Keyboard Rest Dimensions: 560(l) x 230(w) mm
- ▶ Mouse Rest Dimensions: 220(l) x 190(w) mm
- ▶ Max desk thickness: 25mm

3534	Keyboard Rest	£44.95
3533	Mouse Rest Desk Extension	£22.95

Neutraliser Keyboard System

This neutraliser keyboard system can solve the problem of a lack of space at some workstations.

- ▶ Easily adjustable for left and right-handers
- ▶ Angle and height adjustment - no levers needed to adjust platform to correct position
- ▶ 515(l) x 270(w)mm

3522	Neutralizer Keyboard System	£139.00
------	-----------------------------	---------

Corner Keyboard

A cost effective solution for frustrated corner desk computer users.

- ▶ One size fits all: 595(l) x 390(w) mm
- ▶ Grey unless specified

3556	Corner Keyboard - Metal	£29.50
3551	Corner Keyboard- Grey	£27.50

Posturite 'Number Slide' Arch Keyboard

A Compact Keyboard with an integral number pad that easily slides out sideways (right hand only) to expose the fully functioning number pad. Avoids the need to have an extra number pad as with other compact keyboards. An extensive range of function keys along with quick push paddle keys makes this keyboard an exceptional all round keyboard.

- ▶ Dimensions: 330(l) x 180(w) x 33(h) mm; 400(l)mm when Number Pad Opened
- ▶ Extra USB port at rear for mouse / pen drive
- ▶ Roller bar below space bar for easy scrolling

9820000	Mini Arch Keyboard with Number Slide	£49.95
---------	--------------------------------------	--------

Compact Mini Keyboard

The Compact Mini Keyboard is suitable for normal desktop computers and laptop users. The narrow profile allows you to simply move the mouse closer to you for easier operation, thereby reducing the risk of work related upper limb disorders. At the top there are seven Internet hot keys allowing the user to search, navigate web pages, select favourites and explore many options.

- ▶ Ultra slim profile
- ▶ Dimensions: 320(l) x 170(w) x 12(h) mm
- ▶ Black / silver
- ▶ Supports multimedia with multi-functional hot keys

354301	Posturite Compact Mini Keyboard	£19.95
--------	---------------------------------	--------

Mini Keyboard & Numberpad

The mini keyboard is intended as a two part keyboard for right or left handed mouse users. It allows you to simply move the mouse closer to you for easier operation, thereby reducing the risk of upper limb disorders.

- ▶ 2 USB ports
- ▶ Laptop style keys
- ▶ Keyboard dimensions: 300(l) x 170(w) x 15(h) mm
- ▶ Number pad dimensions: 140(l) x 170(w) mm

354101	Mini Keyboard Alfa	£49.95
354201	Mini Numeric Pad Black USB	£33.95

Ergostars Saturnus

A Compact keyboard with full sized 'laptop' keys, 2 USB ports and multimedia keys.

- ▶ Optimal layout (big "enter"-key and user-friendly positioned arrow keys)
- ▶ Pleasurable typing feeling (shear mechanism instead of membranes)
- ▶ Can be extended with a complementary numeric keyboard (number pad)
- ▶ Comes with multimedia keys and 2 USB ports (USB hub)
- ▶ Dimensions: 305(l) x 165(w) x 20(d) mm

9735000	Ergostars Saturnus Silver Keyboard	£49.95
9735001	Ergostars Numeric K'board with Calc	£41.95

Gold Touch Keyboard

This keyboard can be split both horizontally and vertically to achieve the most personally comfortable position possible. This design minimises the effects of ulnar deviation, (splaying the hands outward) pronation (turning the hands downwards over the keyboard) and dorsiflexion (cocking the hands back at the wrist).

- ▶ Dimensions: 338(l) x 178(w) x 25(d) mm

3549	Goldtouch Keyboard PS2/USB Black	£149.95
3548	Goldtouch Keyboard PS2/USB White	£149.95
3553	Goldtouch Black USB Numeric Pad	£67.95

Fujitsu / Siemens Split Keyboard

This keyboard promotes the natural positioning of the user's arms and hands, thus making for fatigue-free operation. This is achieved by angling the two halves of the keyboard at 30 degrees to each other and by additionally incorporating a front-to-back inclination. You can also adjust the horizontal spread to fit exactly with your working position.

- ▶ Keyboard slope range: 6° and 12° / lateral slope: 0°, 10° and 16°
- ▶ Dimensions: 383(l) x 166(w) x 42(h) mm

9770000	Fujitsu Siemens Split Keyboard	£99.95
---------	--------------------------------	--------

Microsoft Ergo 4000

The Gull Wing design features a 14-degree gable, a natural arc and a curved key bed - bringing the keys closer to your fingers to reduce reach and unnecessary motion, while encouraging a more natural typing position. It also comes equipped with an optional palm lift for a seven-degree reverse slope and a cushioned wrist rest that encourages better arm and wrist alignment.

- ▶ Zoom slider
- ▶ Dimensions: 503(l) x 262(w) x 83(d) mm

354402	Microsoft Ergo 4000 Keyboard Black	£44.95
--------	------------------------------------	--------

Left Handed Keyboard

This exceptional left handed keyboard fulfils a long felt need, providing the most convenient layout for people who are naturally left-handed.

The individual mechanical key switching provides the smooth feel and bounce characteristics. The design also maintains the ergonomic key positioning required in modern offices and makes the it a real pleasure to use.

- ▶ A must for those entering figures all day
- ▶ Number pad positioned on left-side of keyboard
- ▶ Dimensions: 470(l) x 200(w) x 20(h) mm

3545	Left Handed Keyboard	£89.95
------	----------------------	--------

Freedom Portable Keyboard

This keyboard offers you a folding, 63-key design for use with your PDA, Pocket PC or Bluetooth Smart Phone. It helps you open up your devices potential with shortcut's and programmable hot keys for complete remote control.

- ▶ Supports Bluetooth devices running Palm OS, PocketPC, Symbian, and RIM Blackberry
- ▶ Open Dimensions: 280(l) x 95(w) x 10(h) mm
- ▶ Closed Dimensions: 140(l) x 95(w) x 20(h) mm

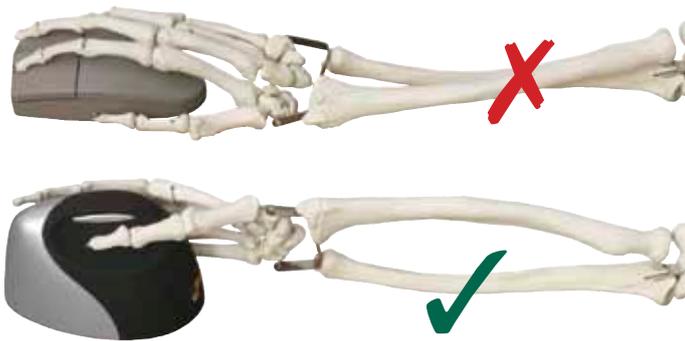

9767000	Freedom Universal Bluetooth Keyboard	£70.00
---------	--------------------------------------	--------

Vertical Mouse

Wired

Wireless

The Evolent Vertical Mouse has a patented shape that supports your hand in a neutral, relaxed handshake position which eliminates forearm twisting.

- ▶ Five buttons can be individually programmed to perform a variety of functions for speeding up common tasks with a single touch
- ▶ Optical sensor accurately tracks the movement of the mouse without a ball for improved reliability
- ▶ Wired and Wireless options available
- ▶ Available in black and silver only
- ▶ Available for left or right hand mouse users

1401102	Evolent Vertical Mouse R/Hand	£79.95
1401103SIL	Evolent Vertical Mouse L/Hand	£84.95
1401101	Evolent Vertical Mouse Wireless R/Hand	£114.95

Grip Mouse

The Grip Mouse is designed to work with the natural shape and movement of your arm. The comfortable shape is better suited for larger hands and allows a relaxed position.

- ▶ Available in right hand only
- ▶ Patented shape allowing comfortable usage
- ▶ Ergonomic design
- ▶ Latest optical orientation technology adopted

9751000	Grip Mouse	£46.95
---------	------------	--------

Contour Perfit Optical Mouse

Measure from the first line of your wrist to the end of the middle finger.

The only mouse that gives you the perfect fit. No matter if your mousing hand is large or small, right or left! The performance and ergonomic benefits delivered by this multi-sized solution simply cannot be achieved by any other 'one-size-fits-all' mouse.

Its form fitting shape gives your hand total support and allows cursor control with significantly less strain and fatigue.

- ▶ Available in: Small (160 -170mm), Medium (170-190mm) Large (190-210mm) & X-large (210mm+)
- ▶ Programmable function keys
- ▶ Thumb support and integrated scroll wheel
- ▶ Tilted palm support
- ▶ Elevated wrist support
- ▶ Available in left- or right-handed

3560BLA	Contour Mouse - Small Right Hand Black	£79.00

3562BLA	Contour Mouse - Med Right Hand Black	£79.00
3563BLA	Contour Mouse - Medium Left Hand Black	£79.00
3564BLA	Contour Mouse - Large Right Hand Black	£79.00
3565BLA	Contour Mouse - Large Left Hand Black	£79.00
3566BLA	Contour Mouse - X Large Right Hand Black	£79.00

Hoverstop Laser Mouse

Hoverstop reminds you to take your hand off the mouse when you are not actually using it. This reduces harmful static muscle tension to a minimum. The Laser mouse has improved ergonomic shaping, a high resolution Laser sensor. A LED on the mouse shows your hand is detected and pre-warns you when the hand should be removed.

- ▶ Right and left-handed use
- ▶ High resolution 400 / 800 DPI LASER
- ▶ Plug-and-play, no drivers required

9702102	Hoverstop Mouse	£49.99
---------	-----------------	--------

4507104 Black Anir Mouse Large £79.95

4507105 Black Anir Mouse Small/Medium £79.95

Logitech Pilot Optical Mouse

A straightforward and affordable optical mouse. Enjoy plug & play ease and precise optical tracking.

- ▶ Precise Optical Sensor
- ▶ Convenient Scroll Wheel
- ▶ Grey
- ▶ Plug & Play

351201 Pilot Logitech Optical Wheel £10.95

Logitech MX Air

On your desk, advanced laser technology gives you precise tracking and instant response. In the air, innovative Freespace™ motion sensing transforms hand motions into natural, responsive cursor controls.

- ▶ Explore your new media universe with a state-of-the-art mouse that's effortless to use - on your desk or in the air
- ▶ Scroll panel
- ▶ Li-ion battery: Recharges faster, lasts longer
- ▶ 2.4 GHz wireless

9745005 Logitech MX Air £89.95

Switch Mouse

This ground-breaking peripheral device integrates two major innovations - a V-shaped base, which puts the wrist and forearm into a natural pronation for left or right-handed users, and size adjustability to provide a perfect fit for any computer user.

- ▶ Four-way scrolling dish provides vertical and horizontal navigation and minimizes repetitive motion
- ▶ Adjustable length ensures proper fit for users
- ▶ Accommodates left or right-handed use
- ▶ Programmable buttons

83124 Switch Mouse £62.00

Contour UniMouse

The Uni mouse is a fantastic mouse solution; its ergonomic shape provides comfort and support to the user.

- ▶ Three buttons and scroll wheel with optical technology
- ▶ Mac users: Application sensitive settings and control panel for ease of button customisation
- ▶ Simple plug and play installation
- ▶ Soft rubber side grips for comfort and control

9796000 Contour Uni Mouse £24.99

RollerMouse Free

Contour RollerMouse Free® is freedom, functionality and flexibility. It is a great alternative to a standard mouse and aimed at users interested in operating the mouse with the left or the right hand or with both simultaneously. It is placed between the keyboard and the user and consists of a unit with a roller bar and preprogrammable buttons.

The RollerMouse Free eliminates constant reaching for the mouse and its design ensures all work is performed inside the optimal work zone - in front of the user, keeping muscles relaxed. RollerMouse Free® is an ideal companion to laptops on-the-move or on desks with limited space.

- ▶ Roller bar can slide, click and roll in one action
- ▶ 5 reprogrammable buttons offering left click, right click, double click, copy and paste and scroll lock functions
- ▶ Roller wheel and clickable rollerbar (provides left click function)
- ▶ Height adjustment pads for use with low profile keyboards
- ▶ Dimensions: 430(l) x 115(w) x 24(d) mm
- ▶ Available in black or white with black detachable wrist rest

4401201	Contour Roller Mouse Free Black	£199.99
4401202	Contour Roller Mouse Free White	£199.99

Rollermouse Pro Station

The Rollermouse station is as intuitive to use as a mouse. RollerMouse Pro design for effortless control of the cursor is 67% longer than the "Classic" Rollermouse. Two more buttons to extend versatility & flexibility - includes drag lock and double click functionality.

- ▶ Click tension of the bar is adjustable
- ▶ Can slide, roll and click all in one action, similar to a mouse, thus making it superior to trackballs and touchpads
- ▶ In addition to the clickable Rollerbar the three main buttons are user definable to perform single click, double click, right click and drag lock without the need for a special software driver
- ▶ RollerMouse controls are centrally located beneath the spacebar, allowing users to alternate between both right and left hands
- ▶ Dimensions: 510(l) x 290(w) mm
- ▶ Available in Black or Cream

4401102	Contour Roller Mouse Pro Cream	£159.00
4401101	Contour Roller Mouse Pro Black	£159.00

Trackbar Emotion

Unbeatable combination of science: Trackbar Emotion™ represents the latest in ergonomic science, the latest in technological science and the most up-to-date industrial design. It was mindfully created for both preventative as well as rehabilitative use for people concerned about upper limb disorders (ULD's).

It was built on the principle of centering the pointing device between the user and keyboard (defined between keys G and H). This positioning keeps the user's hands and arms in a more natural position during keyboard and mouse work. Employing this principle, this product reduces or eliminates sideways or reaching arm movements that can increase the risk of developing ULD's.

- ▶ Symmetric design allows the use of both hands evenly. Used either with the roll closer to the keyboard or closer to the body
- ▶ Programmable buttons require only 50-70grams of force to activate (most mice require 2-3 times that!) and allow user to speed up repetitive functions – significantly reducing the strain of "mousing"
- ▶ Roll bar is much larger in diameter than other roll-using peripherals allowing for precise cursor motion with less manual effort, greater comfort and a quicker learning curve
- ▶ Personal choice - Trackbar Emotion™ is made to work either with the buttons close to you (A) (the default position) or rotated 180° and close to the keyboard (B). Press the button on the underside of the device to make the switch
- ▶ Weight: 300g
- ▶ Equipped with 5 programmable buttons
- ▶ Dimensions: 280(l) x 105(w) x 32(h) mm

4501100	Trackbar Emotion	£49.95
---------	------------------	--------

MouseBean

Mouse not included

This is one of those brilliant but simple ideas that you really don't know why someone didn't think of before. MouseBean was invented to tackle the problem of mouse induced wrist pain by providing support, protection and comfort. 4 Port USB Hub

4 Port USB hub for connecting multiple devices. Suction cup to attach to desired surface.

- ▶ 4 x USB points
- ▶ Suction cup

3547 4 Port USB Hub £7.00

Self-Help & Posters

Education, education, education

It's not only politicians who see learning as the pathway to a better future.

We've produced a comprehensive library of educational material – manuals, posters and videos – to help people understand how they can improve their own chances of avoiding health problems in the workplace.

Understanding the body's mechanics and the importance of sitting and lifting correctly can help avert the most common causes of back pain and work-related upper limb disorders that each year affect more than one million people.

By buying our new BackCare A3 posters, you will not only raise awareness of the causes of back pain, but also help a worthy cause. 50% of all sale proceeds from the BackCare posters will be donated to BackCare, the Charity for Healthier Backs.

X-ray Mouse Mat

Virtually indestructible under normal use and maintaining their top quality appearance over time, these mouse mats are specially developed for optical mice as well as conventional mice, offering 100% perfect tracking.

- ▶ Non-reflective surface
- ▶ Non-slip backing

9007 X Ray Mouse Mat £6.95

Art of Sitting Poster

An A2 sized poster showing key points on how to sit correctly.

9003 Art of Sitting Posters A2 £0.95

Manual Handling Posters

Set of 4 A2 Posters promoting the importance of Manual Handling. Each poster presents manual handling guidance around the workplace.

- ▶ Comes as a set of 4 different posters
- ▶ Size: A2

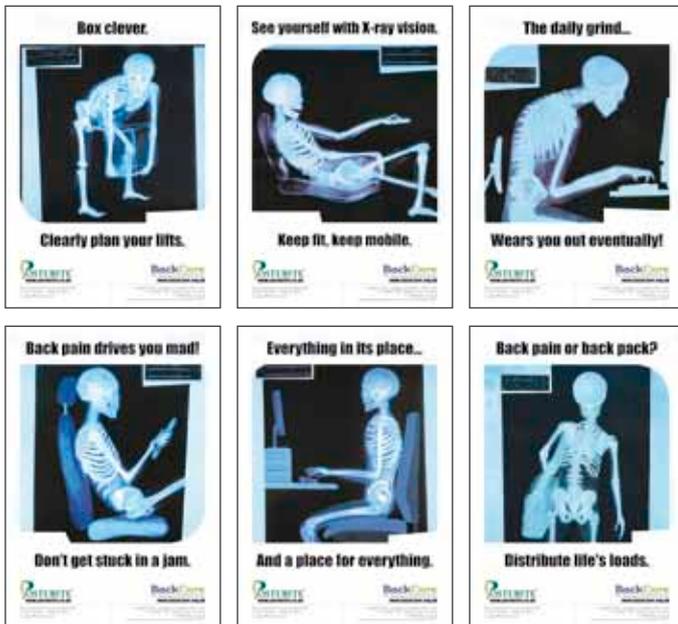

33000L Set of Lifting Techniques Posters £14.95

BackCare X-ray Posters

Set of 6 A3 Posters promoting the importance of good back care. Each poster presents an x-ray image of your posture in relevance to situations you find yourself in every day; be that, at work, at home or in your car.

- ▶ Comes as a set of 6 different posters
- ▶ Size: A3
- ▶ Printed black and blue on heavy weight paper

9753006 Set of Posture Poster (Set of 6) £19.95

Office Ergonomic Posters

Set of 6 A2 Posters promoting the importance of ergonomics in the office place. Each poster presents a new set of guidelines on a separate topic from 'How to sit correctly' to 'The ideal workstation'.

- ▶ Comes as a set of 6 different posters
- ▶ Size: A2

32900L Set of Office Ergonomics Posters £24.95

Back and Neck Self Help Manuals

For Your Back Self-Help Manual

Understandable information on how to care for your back. What occurs in the spine when injury is sustained. How to prevent injury and what to do when injury occurs. Emphasis on self-responsibility and physical fitness.

For Your Neck Self-Help Manual

Cost effective neck care for everyone. Emphasises self-responsibility and shows what you can do to have a healthier neck. Exercise section demonstrates clearly and concisely the importance of exercise. Numerous illustrated exercises show how to get started on a total exercise programme.

Managing Back Pain Self-Help Manual

The most complete and easy to use daily activities guide for back pain sufferers. Recommended for acute and sub-acute back care and designed to allow your patients to participate in activities of daily living without increasing their symptoms. Helps the patient to realise their role in the recovery process.

Your Healthy Back Self-Help Manual

Supervisors guide to prevent and manage back injuries. Complete guide for back injury prevention, body mechanics, workstation design, and claims management for supervisors. Use alone or to accompany a supervisory training session.

17104	Self-Help Manual - For Your Back	£5.00
17204	Self-Help Manual - For Your Neck	£5.00
17105	Self-Help Manual - Managing Back Pain	£5.00
17760	Your Healthy Back Manual	£5.00

Sex & Back Pain Manual

Addresses both communication and sexual techniques, which are categorised by flexion or extension principles and pelvic girdle dysfunction. Illustrations are frank, but not at all offensive.

18100 Self-Help Manual Sex & Back Pain £5.00

Posturite 11° Wedge

The Posturite 11 degree wedge will allow you to sit down for long periods with the pelvis tilted correctly and the spine in its natural position. This will significantly decrease muscle fatigue and pain across the lower back.

- ▶ Covered in hard wearing washable plush velour
- ▶ Dimensions: 380(l) x 355(w) x 90(d) mm

4033 11 Degree Wedge £15.95

Posturite Slimline Wedge

The Slimline wedge is perfect for use in a car where headroom is at a premium. It is also ideal for chairs which slant backwards and you feel the need for just a little more added support to ease muscle tension in the lumbar region.

- ▶ Covered in hard wearing washable plush velour
- ▶ Dimensions: 370(l) x 355(w) x 50(d) mm

4034 Slimline Wedge £15.95

Coccyx Wedge

Gently rotates the Pelvis forward to relieve the strain from the lower back. The coccyx relief recess guarantees maximum comfort for injured or bruised coccyx.

- ▶ The recess is 12.7cm from the back and 9.5cm wide
- ▶ Covered in hard wearing washable plush velour
- ▶ Dimensions: 380(l) x 355(w) x 95(h) mm

4028 Coccyx Cut-Out Wedge £34.95

Posture Curve

The best selling Posture Curve continues to provide simple effective relief of backache from poor car seat design.

- ▶ Includes securing strap
- ▶ Available in black
- ▶ Dimensions: 340(l) x 305(w)

4054 Posture Curve - Traditional £26.95

The Winged Roll

This Winged Roll provides enough lumbar support to maintain the inward curve of the lumbar spine with the added advantage of lateral wings to keep the support in place.

- ▶ Designed to provide both lumbar and lateral support
- ▶ Height adjustable with a securing strap
- ▶ Dimensions: 320(l) x 150(w) mm

4021 Winged Roll £19.95

Posturite Rolls

The circular roll is usually of most benefit to those users who have a particularly pronounced lordosis and require a little extra support to fit snugly.

- ▶ D-shape roll available in 4" and 5"
- ▶ Circular roll available in 4" only

4031 4 Inch D Roll £9.95

4030 5 Inch D Roll £9.95

4032 4 Inch Roll £9.95

Posturite Back Support

Designed to encourage a healthier position for the spine, the anatomically shaped Posturite Back Support gives lateral as well as lumbar positioning to ensure pain relief by correct alignment of the spine pelvis and legs.

- ▶ Ideal for the home where soft lounge chairs can provide very poor support
- ▶ Covered in washable plush velour with elasticated buckled strap
- ▶ Dimensions: 420(l) x 380(w) x 125(d) mm

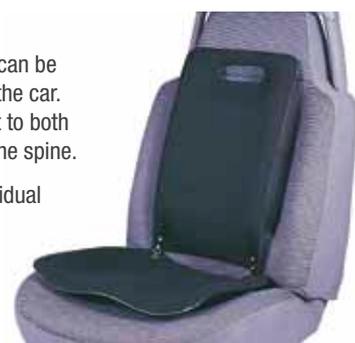

4036 Posturite Back Support £24.95

Back Friend

Combined backrest and seat which can be used in any seat or chair - ideal for the car. Designed to give the correct support to both the lumbar and thoracic regions of the spine.

- ▶ Height adjustable to suit the individual
- ▶ Backrest: 510(l) x 300(w)
Seatbase 425(l) x 380(w) mm
- ▶ Also available with double padding

4010 Backfriend - Black £52.95

401002 Backfriend Double Padded Black £55.95

S'port Max

The all-purpose S'port Max is a back support so comfortable you'll hardly know its there.

- ▶ Stays in place to stabilise the hips and pelvis and effectively support the lower segments of the spine, where most back injuries occur
- ▶ Increases intra-abdominal pressure to decrease the loading on the spine by as much as 25%

E-learning & Training Solutions

All employers have a duty of care to protect the health and safety of their staff, whether they work in hard hats and steel-capped boots or at a desk.

But it's not always easy for companies and organisations to keep up to speed with ever-changing health and safety legislation and training requirements.

Lack of expertise, current knowledge, resources and time can allow potentially dangerous and costly holes to appear in the regulatory shield that should protect both employer and employee.

That's why an increasing number of businesses, from SMEs to multi-national companies, are choosing to outsource this vital function.

WorkRite, our health and safety compliance division, will ensure that your organisation implements and conducts an effective health and safety regime, in accordance with current legislation.

Our comprehensive fully-managed service leaves you to concentrate on running your business while our experts take care of making sure your health and safety procedures, policies, documentation, risk assessments and training meet current requirements.

As well as ensuring compliance, our aim is always to make productivity gains that will provide you with a rapid return on your investment.

Whatever your requirements, you can expect the same attention to detail and personal service that have helped Posturite to become the UK's leading supplier of ergonomic solutions for the workplace.

Tailored health & safety management

Our team will work with you to ensure the package of consultancy and training is right for your company needs.

All our e-learning packages are supported by our unique online management system.

Specifically you can:

- ▶ Manage trainee data
- ▶ Follow an audit trail of actions required or taken
- ▶ Receive and set-up automatic reminders of training requirements and post-assessment actions
- ▶ View all training records
- ▶ Create and view reports
- ▶ E-mail trainees

For a free online demo of WorkRite e-learning courses:

tel: 0845 345 0030

email: support@workrite.co.uk

web: www.workrite.co.uk

E-learning Courses

All our courses include:

- ▶ Guided interactive learning modules
- ▶ Clearly identified sections with course objectives and summaries
- ▶ Clear, relevant illustrations and straightforward navigation
- ▶ Each module can be saved and returned to allowing users to complete the training at their own pace in their own time
- ▶ Test with certificate on successful completion
- ▶ Ability to audit
- ▶ Accessibility options and functions

AssessRite

An easy to use, learn and test course which offers a creative and commercially prudent route to help ensure that your organisation meets its health and safety obligations relating to DSE. Employees learn how to recognise the potential health risks involved in using DSE, how to sit correctly and how to avoid posture-related problems.

Office Health & Safety Awareness (OHSa)

An introduction to health and safety. This course will introduce the following areas where there is legislation to control risk and reduce work-related ill health. This includes: musculoskeletal disorders, working with computers, slips, trips & falls, electrical and fire safety, manual handling and welfare.

AssessRite for Homeworkers

Based on our original DSE awareness course, AssessRite, our Homeworkers edition is specifically designed to help fulfil your legal requirements for Home Workers. The areas covered include DSE, Manual Handling, Electrical Safety and Isolation.

Office Health & Safety Awareness (OHSa) for Line Managers

Employers have a duty to protect employees and keep them informed about health and safety issues in the workplace. This course will help line managers, to have a pro-active approach towards the health and safety of staff.

HandleRite

The essential guide to correct manual handling. It is vital for employees' safety in the workplace to know and use correct manual handling techniques. HandleRite provides the essential guide to this. Frequent use of interactivity within the program ensures that the important points are reinforced and well understood.

FireRite

A simple but useful guide to fire safety and prevention, with instruction on the appropriate actions to take when faced with a possible fire hazard.

Trainees learn how to reduce or even eliminate fire risks, with interactive testing to ensure a high level of understanding.

FeelRite

An introduction to the subject of control and stress. The course aim is to inform employees what stress is and what it is not; so encouraging them to look at their home and work lives to identify potential problems. Once they are aware of these it will help them to identify areas where improvements could be made to enable them to manage these issues.

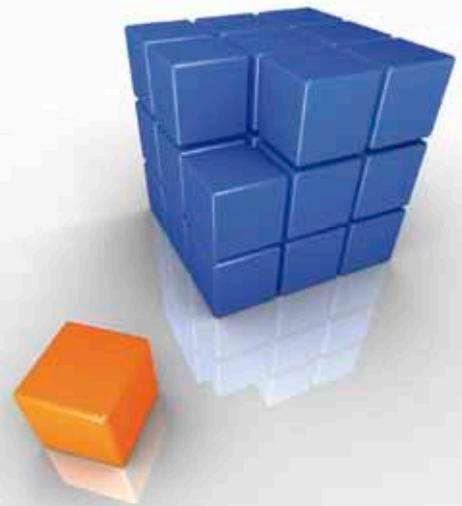

Can't find what you need?
We will create a bespoke e-learning course on the subject of your choice.

...Just give us a call!

We're here to make health & safety compliance **easy!**

At WorkRite, we understand that it is not always easy for companies and organisations to keep up to speed with ever changing legislation and training requirements.

We will help to ensure that your organisation implements and conducts an effective health and safety regime in accordance with current legislation.

WorkRite services include:

You can choose from a comprehensive menu of health and safety management and training solutions that leaves you free to run your business.

▶ Risk Assessments

There is a mountain of legislation which now requires risk assessments to be carried out and kept up to date. Our experts can complete all required office assessments including DSE, fire safety, manual handling, home working...

▶ Policies and Procedures

If you have neither the time nor the expertise to formulate health and safety policies, we can assist you. We have experience of many different industries and our expertise will enable us to write the policies and procedures appropriate to your business.

▶ Overload Service

Most health and safety professionals are now so busy that they have to prioritise and only get part of their work done, so let us assist you when things need to be completed.

▶ Call Centres

Many companies run call centres which can bring their own health and safety issues. We have plenty of experience in dealing with the special problems that call centres can bring.

▶ Appointed Safety Advisor

Not all companies are in a position to appoint a full-time health and safety officer. Our service provides you with someone you can call on for expert advice and assistance when you need it.

▶ Ergonomic Audits and Assessments

Do you have an employee who's experiencing problems? Our team of ergonomists and physiotherapists can carry out assessments and audits, providing clear expert advice.

Training

A broad range of experience delivering the best possible service

We have a blend of fully qualified health and safety professionals, physiotherapists and ergonomists with over 40 years experience to ensure we can provide the skills that you need to assist you in your health and safety management and training.

Our training courses can be held on your sites or at other locations. We also run some open courses around the country where individual places can be booked.

All our in-house courses can be adapted to reflect your company and your policies and procedures. We are also able to develop courses specifically for you to cover a range of issues you may need.

We can help you to create your own bespoke package from the large range of available options, or you can place your entire health and safety management and training function into our expert hands. Either way you can expect the same attention to detail and personal service that have helped Posturite to become the UK's leading supplier of ergonomic solutions for the workplace.

Our areas of expertise include:

- ▶ DSE (Display Screen Equipment)
- ▶ Fire Safety and Prevention
- ▶ Manual Handling
- ▶ Induction Packages
- ▶ Stress
- ▶ Risk Assessment
- ▶ Ergonomics

We can run a full range of training courses both in-house and at venues throughout the UK. In-house courses can be customised to suit as few or as many employees that you need to train. Many of our courses are accredited by the CIEH and all can be tailored to meet your specific needs.

About our lead presenters:

Katharine Metters MCSP, cMIOSH, MSc.Erg.

Katharine is a Member of the Chartered Society of Physiotherapists, holds a Masters Degree in Ergonomics and is a Chartered Member of the Institute of Safety and Health.

This unique combination of qualifications together with her vast range of experience working within health care, food, retail and utility sectors enables Katharine to offer a very broad-based range of training, education and health and safety management in the workplace.

John Ridd FErgS. FRSH. FIOSH. Eur. Erg.

John is one of the UK's leading consulting ergonomist specialising in work and workplace design in relation to musculoskeletal disorders. He worked for the Robens Institute at the University of Surrey for over twenty years. John qualified as an applied physiologist, and has since worked extensively in ergonomics research and consultancy, particularly in the areas of manual handling and office ergonomics. John also serves as a British representative on European Committees concerned with reducing the risk of musculoskeletal injuries at work.

Debbie Pettitt DipRGRT MCSP

Debbie Pettitt is a Member of the Chartered Society of Physiotherapy and holds a Diploma in Remedial Gymnastics and Recreational Therapy as well as City and Guilds 7307 teacher training qualification.

Together with her vast teaching experience in Anatomy and Physiology, Treatment and Management of Injuries and First Aid, Debbie joined Posturite in July of last year and now offers a range of training including DSE, manual handling and first aid, in addition to workstation and specialist assessments.

Office Environments

Translating ideas into reality, on time, on budget.

Whether you're fitting out a single office or an entire suite, Posturite Office Environments can help you make the most of your space - and your budget.

Our turnkey service offers a full range of creative, cost-effective full interior solutions.

Our focus, as always, remains on ergonomics. But Posturite Office Environments provides a whole lot more.

Whatever the size of the contract, with Posturite Office Environments you'll find the same personal service and attention to detail that have helped to make Posturite the UK's leading supplier of ergonomic office solutions.

Office space is too costly to waste. Let us work with you to meet your office interior needs and objectives within your budget and timescales.

Turnkey Service that offers a full range of creative, cost-effective full interior solutions.

Occupational Health & First Aid Specialists

We're all looking for savings at the moment. But the most important saving you will ever make is someone's life.

That's why, even in these tough economic times, there are some things you simply cannot afford to be without or ignore.

Evacuation Chairs: More than 30,000 workplace fires take place every year. You could be liable if all methods of escape haven't been provided.

Defibrillators: Even if you think it unlikely that anyone will have a cardiac arrest on your premises, why take the risk?

First Aid Training: Are all your appointed persons' certificates up to date? Please page 58 for more information.

First Aid Supplies: Are your premises fully stocked with the dressings and equipment needed to deal with cuts, scalds and other minor injuries?

All the products and services you need to meet your organisation's essential occupational health, First Aid and training requirements are here for you, along with the same high levels of customer care and service on which Posturite has built its unrivalled reputation in the ergonomics industry over the last 18 years.

We treat all our customers as individuals and tailor our services to meet your specific needs. So whether you require our gold standard, all-encompassing fully-managed service or a simple statutory First Aid kit, our customer service team will be delighted to hear from you.

Defibrillators

Are you covered if someone has a heart attack?

How would you stand legally if someone suffered a heart attack on your premises and you didn't have the necessary kit available to give them emergency treatment?

Our industry-leading defibrillators and economical on-site training programmes will ensure you are fully covered should the worst happen.

Powerheart AED G3 Defibrillator

The feature rich Powerheart AED G3 offers customers many new and exciting user-friendly features.

The Powerheart AED G3 continues to feature industry leading one button operation and RescueReady® technology featuring patented daily, weekly, and monthly self-testing, virtually guaranteeing first time, every time rescue performance. The Powerheart AED G3 also incorporates advanced technology features such as patented and programmable RHYTHMx® analysis software and STAR® biphasic defibrillation energy waveform.

Industry leading technology and added performance features in a new user-friendly form factor leads the way for the next generation of Cardiac Science AEDs.

- ▶ AHA/ERC 2005 Guidelines Protocols
- ▶ Simple, easy to use, one button operation
- ▶ Technology includes partial energy test with weekly self-tests
- ▶ More instructive voice prompts guide user through rescue
- ▶ Outstanding voice prompt quality and clarity
- ▶ Lightweight in a userfriendly form factor
- ▶ Industry's first four-year full replacement operating battery guarantee

MV9300E-502	Powerheart AED G3 semi automatic	£1,543.00

Martek Lifeline AED Debribrillator

The LIFELINE AED is technologically advanced enough to include all the critical features necessary to provide the most advanced treatment for Sudden Cardiac Arrest, including the most studied biphasic shock waveform. Yet it is so simple and un-intimidating to use that even non-medical personnel can effectively save lives.

The LIFELINE AED incorporates state-of-the-art digital signal processing techniques, advanced ECG analysis algorithms and exceeds European Resuscitation Council and American Heart Association performance recommendations.

- ▶ Standard AED can also be used as trainer unit
- ▶ Unique 7 year battery option
- ▶ Weatherproof - IP54
- ▶ Active status indicator and clear voice prompts
- ▶ Pre-connected pads
- ▶ Unique & award winning design means the unit is self contained with no need for lids or an additional case
- ▶ Data Card - simple future upgrades or legislative changes with no need for PC interface or servicing

MV707	Martek Defib Cabinet With Alarm	£240.00

Evacuation Chairs

Are you equipped to evacuate your site in the event of an emergency?

The Regulatory Reform (Fire Safety) Order 2005 says that you must manage any fire risk in your premises. You must take reasonable steps to ensure that everyone on the premises, or nearby, can safely escape if there is an emergency.

- ▶ We can offer Evacuation chair product training with our whole range of chairs. Please call for more information.

Ferno Patient Carry 1 Evac Chair

These practical, comfortable carrying chairs serve the demanding requirements of the emergency services and are widely used by professionals in other areas, such as Nursing Homes, Hospitals, Clinics and Sports/Leisure Establishments.

Ideally suited for carrying patients up and down stairs, the wheels are set inside the frame to minimise the width, allowing use in confined spaces.

- ▶ A chest restraint with an Easi-Clip buckle and the raised seat panel enhance patient comfort and security
- ▶ 910(l) x 410(w) x 220(d) mm
- ▶ Weight: 8.5kg
- ▶ Load Capacity: 114kg

MKEVC01 Ferno Patient Carry 1 Chair max 114kg £237.35

Ferno Transit Evac-T

Glides down stairs in one smooth action ensures patient confidence, comfort and control.

- ▶ Lower and adjustable upper carrying handles facilitate operation and improve operator control
- ▶ Removable head pad and comprehensive
- ▶ Patient restraint systems enhance patient comfort and security
- ▶ Compact profile for ease of storage
- ▶ Lightweight product for ease of use
- ▶ 800(l) x 480(w) x 410(d) mm
- ▶ Weight: 17.7kg
- ▶ Load Capacity: 200kg

MKV2006 Ferno Transit Evac - T Track Chair £1,312.50

EvacuSafe Track Chair

Evacusafe is the step by step evacuation solution. A single user can evacuate a colleague over stairs with a smooth controlled descent, no heavy lifting is necessary.

For buildings with more than one floor, the strategic placing of Evacusafe chairs together with on or offsite training will help your organisation meet the duty of care in risk assessments and DDA.

- ▶ Chair includes: arm rests, seat belt, cushioned head rest and brake.
- ▶ Single operator
- ▶ Foot rest
- ▶ 1460(l) x 540(w) x 700(d) mm
- ▶ Weight: 12.5kg
- ▶ Load Capacity: 136kg

MKEVCETC Budget Evacusafe Track Chair £615.00

Ferno Transit 4 Evac Chair

This top of the range Transit Evacuation Chair has been designed for superior manoeuvrability in confined areas and smooth easy operation up and down stairs.

- ▶ Innovative tri-wheel system enables smooth operation up and down stairs and reduces requirement for lifting
- ▶ Lower and adjustable upper carrying handles facilitate operation and improve operator control
- ▶ Removable head pad and comprehensive patient restraint systems enhance patient comfort and security
- ▶ 980(l) x 410(w) x 430(d) mm
- ▶ Weight: 15.2kg
- ▶ Load Capacity: 127kg

MKEVC05 Ferno Transit 4 Evac Chair £1,164.78

Assistive Technology

In partnership with:

Achievement through technology

iansyst Ltd is a UK market leader in assistive technology solutions for people with disabilities such as visual impairment and dyslexia. Its world-leading portfolio of products and services, and its dedicated team of professional advisers, are now available to Posturite customers through a collaborative venture that also allows iansyst's customers to access our unrivalled expertise in workplace health and safety, ergonomics, assessments and e-learning. It's a win-win situation that gives the customers of both companies a single source route to an extended range of solutions and services.

CapturaTalk v2

CapturaTalk - the revolutionary way to access text.

CapturaTalk software uses high quality, natural sounding voices to read text out loud captured either from a photograph or an electronic document.

CapturaTalk is an innovative software package designed to operate on a range of Windows Mobile phones to access information and to support reading whilst on the move. This is ideal for people who require literacy support for disabilities such as dyslexia, or for those learning English.

9821001	CapturaTalk v2 on Micro SD Card	£275.00
9821002	CapturaTalk v2 pre-installed on HP 614c	£525.00

MindGenius Business

A flexible concept and mind mapping program with advanced exporting and formatting functions.

MindGenius is a sophisticated mind mapping program which gives you the flexibility to draw a variety of concept maps and then export them to a variety of applications. Its innovative approach of displaying the map, the map explorer (which displays the text outline of your map in a hierarchal tree arrangement) and the notes editor, where you can enter, edit and format notes associated with your map, makes it an ideal tool for both mind mapping or planning essays, projects, presentations or even web pages.

System Requirements:

- ▶ Windows 98, 2000, ME, XP or Vista
- ▶ Pentium II 400Mhz
- ▶ 256MB RAM / 100MB HD space

9821011	MindGenius Business single licence	£147.00
---------	------------------------------------	---------

Dolphin EasyConverter Commercial

EasyConverter quickly creates Large Print, MP3, DAISY and Braille versions of written materials that can either be scanned from paper, or input from Word, PDF, html or text files.

It is designed for use in schools, colleges, universities, companies and government organisations. This simple tool ensures that the legislation of inclusion can be met easily and effectively, by providing people with the format of their preference from the written word.

9821020	EasyConverter Commercial	£2,660.00
---------	--------------------------	-----------

Dragon Naturally Speaking Preferred v10 Single Licence & Andrea NC91 Headset

Dragon Naturally Speaking 10 Preferred speech recognition software is used to create documents, reports, emails and search your desktop and the Web faster than ever.

Speech Recognition software provides people with dyslexia and other disabilities the freedom to write and control their computer with their voice. With perfect spelling and audio feedback it enables the user to get their thoughts down quickly and easily enables professional, correctly spelt documents.

9821007 Dragon NS Preferred v10 single licence £120.00

Mindjet MindManager Pro 8 Business

Plan, organise and present tasks in a single application.

Mind mapping is a powerful creativity and production tool using visual methods that can be particularly useful for students and adults who have dyslexia. Mind Manager supports this learning technique while also providing a powerful project management, presentation and organisation package for home, education and business users.

Mind Manager is a comprehensive tool that encourages efficient and accurate management of objectives by clearly identifying resources using visual cues. It simplifies brainstorming sessions, note taking, planning and the complexity of tasks and projects. Text, notes, images and hyperlinks can be easily created, managed and added to the mind map.

9821013 Mind Manager Pro 8 Business single £199.00

Audio Notetaker Single User

Software to explore, annotate and utilise digital voice recordings

Audio voice recordings are a really useful tool to support note-taking in lectures, interviews and meetings, but re-listening and deciphering long digital recordings afterwards is a difficult task. Audio Notetaker is a new and unique software package to help with navigating, annotating and organising digital recordings.

With Audio Notetaker you can see a visual representation of what you are listening to! And you have the tools at your fingertips to quickly review, identify and reference key sections of speech to support your research and editorial work.

9821000 Audio Note Taker V1.4 Single £79.95

Read & Write Gold v9

Read and Write Gold provides literacy support for those people who struggle with reading and writing due to disabilities such as dyslexia.

Read and Write Gold is an easy to use toolbar which sits discreetly on top of any open Windows application. Users are given the opportunity to work in an inclusive manner with their peers by offering additional support when reading or composing text by providing text-to-speech facilities throughout the software program; making it an ideal solution for literacy difficulties, people who have dyslexia or for those learning English as a second language.

9821024 Read & Write Gold V9 Single Licence £320.00

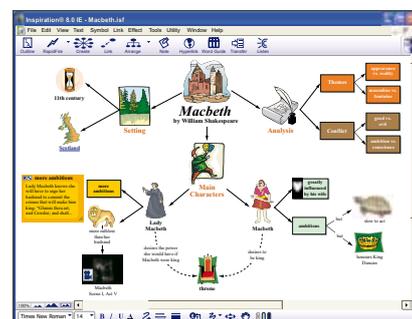

Inspiration v8

Software to explore, annotate and utilise digital voice recordings.

Audio voice recordings are a really useful tool to support note-taking in lectures, interviews and meetings, but re-listening and deciphering long digital recordings afterwards is a difficult task. Audio Notetaker is a new and unique software package to help with navigating, annotating and organising digital recordings.

System requirements:

- ▶ Windows XP or Vista
- ▶ 256mb RAM
- ▶ CD-ROM drive and speakers

9821012 Inspiration v8 single licence £59.00

Olympus DS-65 Digital Voice Recorder

The perfect pocket sized digital recorder.

Compact, but powerful in terms quality and functionality the Olympus DS-65 is the ideal solution for university students, business executives and those with visual impairments.

Equipped with versatility in reference to recording quality in addition to the enhanced voice guidance system, storage folders, Podcast function and customisable playback speed the Olympus DS-65 delivers a more than reasonable balance between price and performance.

- ▶ High storage capacity 2GB
- ▶ Records in MP3 or WMA file format
- ▶ Advanced Euphony options
- ▶ Voice guidance system

9821006 Olympus DS-65 digital voice recorder £159.00

Terms & conditions

1. INTERPRETATION

"Contract" means any contract between the Company and the Buyer for the sale and purchase of the Goods, incorporating these Conditions; "Goods" means any goods agreed in the Contract to be supplied to the Buyer by the Company.

2. APPLICATION OF TERMS

- 2.1 Subject to any variation under condition 2.3 the Contract will be on these Conditions to the exclusion of all other terms and conditions.
- 2.2 No terms endorsed upon, contained in the Buyer's purchase order, or other document will form part of the Contract simply as a result of such document being referred to in the Contract.
- 2.3 These Conditions apply to all the Company's sales and any variation to these Conditions and any representations about the Goods shall have no effect unless expressly agreed in writing and signed by a Director of the Company.
- 2.4 Each order for Goods by the Buyer from the Company shall be deemed to be an offer by the Buyer to purchase Goods subject to these Conditions.
- 2.5 Each order placed by the Buyer shall be deemed to be accepted by the Company unless the Company notifies the Buyer within 7 days that it does not accept the order.
- 2.6 The Buyer must ensure that the terms of its order and any applicable specification are complete and accurate

3. DESCRIPTION

- 3.1 All material and specifications including weights and dimensions issued by the Company and any descriptions or illustrations contained in the Company's catalogues or brochures are issued or published for the sole purpose of giving an approximate idea of the Goods described in them. They will not form part of this Contract

4. DELIVERY & INSTALLATIONS

- 4.1 Unless otherwise agreed in writing the Company will arrange delivery of the Goods to the Buyer's premises in the UK.
- 4.2 Any dates specified by the Company for delivery of the Goods are intended to be an estimate and time for delivery shall not be made of the essence by notice. If no dates are so specified, delivery will be within 30 days of the Buyer placing an order.
- 4.3 Subject to the other provisions of these Conditions the Company will not be liable for any loss (including loss of profit), costs, damages, charges or expenses caused directly or indirectly by any delay in the delivery of the goods (even if caused by the Company's negligence).
- 4.4 The Company will deliver to the ground floor entrance of the Buyer's premises and unless agreed otherwise shall not assemble the Goods.
- 4.5 If a delivery period is specified in the contract it shall commence on the date upon which the company confirms or accepts the customer's order, or (if later) when the company receives any further information from the customer, which shall be supplied promptly, which may be necessary for the contract to be proceeded with. The delivery date or period specified in the contract shall not be binding on the company and although the company will use its best endeavours to deliver such dates or within such periods it shall not be liable in any way for failure to do so.
- 4.6 Where agreed in a contract the Company will install the goods at the premises nominated by the customer as specified in the contract and the customer shall give to the company all necessary access and facilities for the installation work (including arrangements for the customer's staff to be available as and when required). If the customer fails to provide and agree facilities within seven days of delivery of the goods to the premises the contract price shall become due forthwith. The customer will indemnify the company against any liabilities, claims or costs which the company may suffer by reason of injury to person or property of employees of the company or any other person occurring while they are on the Customers premises unless such injury is caused by the fault or negligence of the company.

5. NON-DELIVERY

- 5.1 The quantity of any consignment of Goods as recorded by the Company upon despatch from the Company's place of business shall be conclusive evidence of the quantity received by the Buyer on delivery unless the Buyer can provide conclusive evidence proving the contrary.
- 5.2 The Company shall not be liable for any non-delivery of Goods (even if caused by the Company's negligence) unless written notice is given to the Company within 30 days of the date when the Goods would in the ordinary course of events have been received.
- 5.3 Any liability of the Company for non-delivery of the Goods shall be limited to replacing the Goods within a reasonable time or issuing a credit note at the pro rata Contract rate against any invoice raised for such Goods.

6. RISK/TITLE

- 6.1 The Goods are at the risk of the Buyer from the time of delivery.
- 6.2 Ownership of the Goods shall not pass to the Buyer until the Company has received in full all sums due to it in respect of:
 - 6.2.1 the Goods; and
 - 6.2.2 all other sums which are or which become due to the Company from the Buyer on any account.
- 6.3 The Buyer's right to possession of the Goods shall terminate immediately if:
 - 6.3.1 the Buyer has not paid in full for the Goods and has a bankruptcy order made against him or makes an arrangement or composition with his creditors, or otherwise takes the benefit of any Act for the time being in force for the relief of insolvent debtors, or convenes a meeting of creditors or enters into liquidation except a solvent voluntary liquidation for the purpose only of reconstruction or amalgamation, or has a receiver and/or manager, administrator or administrative receiver appointed of its undertaking or any part thereof, or a resolution is passed or a petition presented to any court for the winding up of the Buyer or for the granting of an administration order in respect of the Buyer, or any proceedings are commenced relating to the insolvency or possible insolvency of the Buyer; or
 - 6.3.2 the Buyer suffers or allows any execution, whether legal or equitable, to be levied on his/its property or obtained against his/it, or fails to observe/perform any of his/its obligations under the Contract or any other contract between the Company and the Buyer, or is unable to pay its debts within the meaning of section 123 of the Insolvency Act 1986 or the Buyer ceases to trade; or
 - 6.3.3 the Buyer encumbers or in any way charges any of the Goods.
- 6.4 The Company shall be entitled to recover payment for the Goods notwithstanding that ownership of any of the Goods has not passed from the Company.
- 6.5 The Buyer will grant the Company, its agents and employees a licence to enter any premises where the Goods are or may be stored in order to inspect them, or, where the Buyer's right to possession has terminated, to recover them when an appointment has been agreed in advance.
- 6.6 If not withstanding the foregoing the Buyer is in default of payment of any part of the purchase price shall before the whole of the purchase price has been paid have a receiving order made against him or being a company go into liquidation or have receiver appointed, then the seller may with out prejudice to any other rights or remedies available to him be entitled to recover possession of the goods and sell the same retaining all monies received on account of the purchase price and the accounting to the buyer for balance if any.

7. PRICE

- 7.1 Prices charged are those agreed between the Company and the Buyer on the date of delivery. These prices are generally those set out in the Company's catalogue but are subject to alteration.
- 7.2 Prices shown in the catalogue are exclusive of delivery and if appropriate, installation and assembly.
- 7.3 The cost of resetting chairs that need resetting or are recycled within a company will be charged at £37.50 plus VAT.

8. PAYMENT

- 8.1 Where the Buyer has an approved credit account, payment of the price for the Goods is due 14 days after the date of invoice.
- 8.2 Where the Buyer does not have an approved credit account the Company will take the Buyer's credit or debit card details at the time of ordering. If the Buyer is a business account or in any event if the Goods are in stock at the time of ordering or will be delivered within 14 days or if the Buyer is a private individual and the Goods are specially ordered (are not generally held in stock) the Company shall forthwith take payment including all applicable charges from the Buyer's account. Otherwise the Company shall take payment including all applicable charges from the Buyer's account seven days prior to delivery.
- 8.3 Time for payment shall be of the essence.
- 8.4 No payment shall be deemed to have been received until the Company has received cleared funds.
- 8.5 Interest on late payments will be charged at 4% above the base rate of RBS.

9. LIABILITY

- 9.1 The Company accepts liability as set out in this Clause 9 but not otherwise.
- 9.2 The Company warrants that the Goods shall be of satisfactory quality and fit for purpose. The Company does not exclude or restrict its liability for breach of this warranty.
- 9.3 The Company accepts liability for directly and reasonably incurred losses (other than those which the Buyer could have reasonably avoided) caused by the Company's failure to perform its services. However the Company's liability is limited as set out in Clause 9.5 below.
- 9.4 The Company does not exclude or restrict its liability:
 - 9.4.1 for death or personal injury caused by its negligence; or
 - 9.4.2 for any liabilities which cannot by law be excluded.
- 9.5 Other than as provided in Clauses 9.2 and 9.4 the Company does not accept any liability for business losses such as loss of revenue, business, contracts, anticipated savings or profits, whether or not such losses are direct or indirect and whether or not the Company has been advised by the Buyer of the possibility of such potential risk.
- 9.6 If the Buyer is a consumer, the Buyer's statutory rights are not affected by these Terms and Conditions.

10. MATTERS OUTSIDE THE COMPANY'S REASONABLE CONTROL

The Company shall not be liable to the Buyer if the performance of any of its obligations is delayed or prevented by any matter outside the Company's reasonable control. Such matters include, but are not limited to, fire, flood, lightning, extreme weather conditions, industrial disputes of any kind, actions of local or national government, war, acts of terrorism or vandalism, power outages.

11. CANCELLATION

(Clause 11.1, 11.2 and 11.3 only applies to Buyers who are consumers and are purchasing an individual product)

- 11.1 The Buyer may cancel an order by sending a written request to the Company at any time up to receipt of the Goods and within 7 working days thereafter beginning with the day after the day on which the Buyer received the Goods.
- 11.2 If the Buyer cancels an order, the Buyer must return the Goods during business hours, carriage paid and in perfect condition, to the Company. If the Buyer fails to return the Goods within a reasonable period the Company will charge for the cost of returning the Goods. If the Buyer fails to return the Goods within a reasonable period, the Company will charge for the cost of collecting the Goods.
- 11.3 If the Buyer cancels in accordance with this clause, the Company will refund all sums paid except those under Clause 11.2.
- 11.4 For all other purchases of more than one product and in every case where the buyer has specified a product not illustrated in the Company's catalogue, the buyer may not cancel the order after receipt by the Company.

12. RETURNS

(This clause only applies to Buyers who are consumers and have purchased an individual product)

- 12.1 If the Company has extended credit to the Buyer, the Buyer may elect to have the option of returning the Goods within 14 days of receipt of the Goods PROVIDED THAT the Buyer notifies the Company at the time of placing its order that it wanted this option.
- 12.2 If the Buyer wishes to return the Goods under Clause 12.1 it must notify the Company immediately by fax or e-mail and return them to the Company within 14 days of receipt.
- 12.3 In all cases (under Clauses 12.1 and 12.2) where goods are to be returned, the Buyer must first telephone the Company to obtain a Returns Note and Number. Goods must be returned during business hours carriage paid in perfect condition in their original packaging with the Delivery Note and Returns Note enclosed.

13. GENERAL

- 13.1 Each right or remedy of the Company under the Contract is without prejudice to any other right or remedy of the Company whether under the Contract or not.
- 13.2 If any provision of the Contract is found to be unenforceable it shall to the extent of such unenforceability be deemed severable and the remaining provisions of the Contract shall continue in full force and effect.
- 13.3 Any waiver by the Company of any provision of the Contract by the Buyer will not be deemed a waiver of any subsequent breach or default.
- 13.4 This Contract shall be governed by English law subject to the exclusive jurisdiction of the English courts.
- 13.5 Terms of business relating to e-commerce are given on the Company's website.
- 13.6 The Company may transfer information about the Buyer to the Company's bankers for the purposes of obtaining credit insurance, for credit reference purposes, credit control, or protecting the Company's interests. The Company will provide the Buyer with details of the Company's bankers on request.
- 13.7 As an environmentally responsible Company, the Company expects that the Buyer will dispose of any waste associated with the Company's products in accordance with best practice and if the Buyer is unable to do so for the Buyer to contact the Company.

'Green' seal of approval

Several years ago Posturite achieved ISO 9001 certification and in 2008 was awarded ISO 14001 accreditation.

ISO 14001 certification is the recognised international standard for environmental management. It is the cornerstone of the ISO 14000 series of environmental standards and the only one requiring certification by a third party.

CEO Ian Fletcher-Price said: "Although we are delighted to have this official recognition of our 'green' credentials, it really only confirms what we have been doing here for years.

"We have long recognised the importance of sustainability in our manufacturing processes and Scandinavian producers like HAG and RH Form have been way ahead of the game in manufacturing chairs using recycled materials and recycling them again at the end of their life.

"The ISO 14001 seal confirms to our customers that we have the systems in place to meet internationally recognised environmental standards."

How to order

By Telephone: 0845 345 0010

Monday - Thursday 9.00am - 5.30pm,
Friday 9.00am - 5.00pm.

By Fax: 0845 345 0020

Simply fill in the order form and fax it to us any time on the number above.

By Post

Please complete the order form along with the relevant payment details to: Posturite Ltd, The Mill, Berwick, East Sussex BN26 6SZ

The Internet: www.posturite.co.uk

Please log on for secure on-line ordering.

Post & Packaging (UK mainland only)

Goods total (exc vat)
Up to £100.00 - £7.50 + vat
Over £100.00 - £12.50 + vat
Chairs - £17.50 each + vat
(For multiple orders - please phone for individual quotation)

Chair Delivery

Delivery of chairs is by courier and requires a signature upon receipt. Please sign as "un-checked". Ensure you advise us of any damage, loss or faults within 24 hours in order to make a valid claim.

Please Note

Our couriers are only insured to deliver items to goods inwards, reception or your front door.

Desking Delivery

Individual desk orders are delivered flat packed for self assembly. On-site installation is available by special arrangement. Larger installations are professionally installed.

Sale or Return Policy

If goods have been supplied on sale or return and you wish to return them within the 14-day trial period, you must first phone the office to obtain a Returns Note and Number. Goods must then be returned in their original packaging with the original Delivery Note and Returns Note enclosed. We do not refund the outward carriage charge nor do we pay for the cost of return.
