

# JOSHO HOMEWORKER ELECTRIC SIT-STAND DESK

JOSHO brings energy and movement to your WFH lifestyle.

**JOSHO**  
Electric Sit-Stand Desk

Translating as 'rise' in Japanese, the JOSHO Homeworker Electric Sit-Stand Desk moves gently and quietly at the touch of a button to the perfect standing or sitting height for you. The sleek, uncomplicated design of this electric sit-stand desk blends seamlessly into the home environment, giving you a dedicated space to be more active, creative and comfortable while you work.

The clear, tactile up and down buttons can be upgraded to the optional memory switch if you'd like to programme in height settings for effortless transitioning. No need to worry about accidents either. JOSHO is designed to be safe in the home with its smart anti-collision technology, which senses obstructions and instantly stops moving.

Choose between clean white or stylish all black to suit your aesthetic. Our experts recommend using the JOSHO Homeworker Electric Sit-Stand Desk to stand for 10-20 minutes every hour, or whenever you feel like it, to shake yourself out of poor sitting postures, boost your circulation, breathe deeply and generally feel better in yourself.
