

Goldtouch Adjustable V2

ergonomic split keyboard

Continuously vertical and horizontal tenting

The Goldtouch Adjustable V2 allows stepless setting of width and height, bringing your hand, wrist and arm into a more neutral and natural position than with a traditional keyboard.

Also has the Goldtouch Adjustable V2 a light key touch, so you can type more comfortably.

A compact keyboard does not have a numeric pad. For this reason, the mouse can be placed closer to the keyboard. Research has shown that 90% of keyboard users seldom if ever use the numeric pad. Working with a compact keyboard results in greater comfort because it reduces the reaching distance to the mouse (Cook, C., et al., 1998). This puts less strain on the shoulder and forearm. Dark letters on a light background make them easier to read (ISO 9241) and contribute to increased productivity (Snyder, 1990).

Meets individual body requirements: continuously vertical and horizontal tenting.

Ergonomic: less reaching to operate the mouse, comfortable and almost noiseless typing.

Keys on the left side: better allocation of work between left and right arm.

Additional: wristrest (BNEGTWR).

Cable length: 200 cm.

Connection: PS2 and USB.

Width	388 mm
Height	25 mm
Depth	178 mm
Weight	1.2 kg
Product code	Multiple versions
