

HandShoeMouse

Relaxed hand position mouse

 BAKKER ELKHUIZEN

Work Smart - Feel Good

Fits like a glove!

 BAKKER ELKHUIZEN

The HandShoe Mouse is an innovative ergonomic mouse designed by the Erasmus University Rotterdam (the Netherlands), with the underlying research confirmed by Hasselt University (Belgium).

Tens of thousands of HandShoe Mouse users are now working pain-free across the globe.

The special mouse keeps the wrist from bending as much to the side while the forearm also turns inward to a lesser degree (Schmid et al., 2015). This means that muscle activity in the forearm is less than it would be when using a conventional mouse (Quemelo & Vieira, 2013).
